EAGLE SCOUT Knute Skjonberg receives his badge from his mother, Mrs. Birger Skjonberg, as his father and scoutmaster look on during a Rotary Club luncheon. Knute is the first Palm Springs Boy Scout to receive an Eagle Award in two years and is a member of Rotary Scout Troop No. 39, Palm Springs' first. Father Skjonberg, as a young man, was a champion skier in Sweden. (Desert Sun Photo)

KHRUSHCHEV READY TO NEGOTIATE ON GERMANY

Red Flight Threats Hit West

East Germany Says It Will Control Air After Treaty

BERLIN (UPI) — Communist threats against Western flights into isolated West Berlin caused growing concern among Allied officials today.

The latest threat came Thursday night from an East German leader who warned that East Germany will control the air above its territory once a peace treaty is signed.

Albert Norden, a member of the East German Politburo and a top Communist propagandist, said new air traffic arrangements with East Germany will have nothing to do with the rights the Western Allies "assumed for its occupation regime."

"As soon as a peace treaty is signed we will control the air above the German democratic republic," he said in a speech reported by the East German news agency ADN. "And one thing is sure—the situation in which kidnapers and revenge seekers and spies are flown out of West Berlin through the air corridors will end."

Soviet Premier Nikita Khrushchev has said he will sign a peace treaty this year, ending Western rights in Berlin.

Norden said in his speech in Gera that after a peace treaty the East German regime will have the right to control "the whole transit traffic." This was interpreted to mean road and rail traffic as well as air transit from West Germany to Berlin, located 110 miles inside the Communist zone.

Cecil Jones Dies of Heart Attack

Cecil C. Jones, a resident of Palm Springs for 16 years and well known throughout the area, died last night of a heart attack while visiting friends at 37-921 Palos Verde, Sunair.

He was 37.
Born in Oklahoma, Jones came to California when he was four years old. Most recently he was employed by Dave Rogers Welding firm. For several years he worked at Desert Forge.

Jones is survived by his widow, Ruby Lee; two sons, Harvey J. Jones, 9, and Paul Roger Jones, 4; a daughter, Carol Ann, 2; a brother, Robert C. Jones of India; and a sister, Lillie Mae Dailey of Banning.

Funeral services are pending, with Wiefels and Son Palm Springs Mortuary in charge.

Hurricane Carla Turns, Heads for Texas Coast

MIAMI, Fla. (UPI) — Hurricane Carla, grown to a 125-mile an hour menace, turned to a more northerly course in the Gulf of Mexico today and weathermen extended a hurricane watch to the entire Texas coast.

The storm at midmorning packed 125-mile an hour winds at its furiously spinning center and flung hurricane force winds of 75 m.p.h. or better 100 miles ahead of it to the north. Gales whipped out 300 miles northward from Carla's eye.

The New Orleans Weather Bureau located Carla near latitude 23.5 north and longitude 88.8 west, or about 460 miles south of New Orleans.

SIGNING THE TITLE to the Palm Springs Airport, Mayor Frank Bogert affixes his signature to the important document which is the official transferring of the ownership of 520 acres of Section 18 from the Agua Caliente Indians to the City of Palm Springs. At right is Tribal Chairman Eileen Miguel, and looking on is Airport Commission Chairman Tom Kieley, City Manager Dan Wagner and local director of Indian Affairs Ray Jackson. (Desert Sun Photo)

Bribe Offer Told By Grid Player

WASHINGTON (UPI) — The University of Oregon's star half-back today pointed an accusing finger at a Chicago gambler and said he offered him \$10,000 to sell out his alma mater in a football game with the University of Michigan.

Michael (Mickey) Bruce, 20, a senior from El Cajon, Calif., rejected the bribe offer. He confronted the briber, Frank "Lefty" Rosenthal during a dramatic session before the Senate rackets investigating subcommittee.

Rosenthal, a tall lanky gum-chewer who said he also lives in Miami Beach, refused even to say if he knew the Oregon star. He pleaded the Fifth Amendment against possible self incrimination.

Bruce said Rosenthal and an associate, David Budin, first sought to play on his sympathies by telling him that a Bronx, N.Y., school mate, James Granata, was in serious financial trouble.

He said the gamblers approached him at the Dearborn Inn at Ann Arbor, Mich., on the pretext of picking up some football tickets which Granata had asked Bruce to secure.

Talked About Game
Rosenthal had arranged to rent a room in the inn immediately next to Bruce. Rosenthal invited him to the room but quickly switched the conversation to the forthcoming game, the witness said.

Bruce said Rosenthal remarked that Oregon was a six-point underdog in the game and then "came out and asked whether I could be bribed."

At that point Bruce said he couldn't decide whether to leave immediately or string along in the hope of trapping the gamblers.

The halfback said Rosenthal suggested it would be a simple matter for the Oregon players to per-

New Notes Sent to Moscow

Soviet Premier Nikita Khrushchev said today he is ready to negotiate the problems of Germany and West Berlin with President Kennedy, provided the President "really means" his suggestion to talk.

At almost the same moment, the Western Allies handed over a new series of notes in Moscow warning Russia "in the most solemn terms" that any interference with the Berlin air corridors would be considered an "aggressive action."

Khrushchev made his offer to talk with Kennedy during a 49-minute speech at a Soviet-Indian "friendship rally" in the Kremlin, held in honor of the visit of Indian Premier Jawaharlal Nehru.

The Khrushchev bid was not new. He has indicated in the past that he wants another summit conference with Kennedy similar to the one they held in Vienna this summer.

The President is willing, but he, in turn, has indicated he would prefer a meeting of foreign ministers beforehand to lay the groundwork for any meeting of the two heads of state.

Tells Russia of Tests

During his Kremlin speech, delivered in calm, deliberate tones and broadcast throughout the Soviet Union, Khrushchev also revealed to the Soviet people for the first time that their country already was carrying out nuclear tests. Moscow resumed its testing last week, and Washington announcements have disclosed four test shots in the atmosphere thus far.

However, Khrushchev rejected as propaganda an Anglo-American appeal to Russia to join in banning all further nuclear tests in the atmosphere.

The Soviet premier also called for admission of both East and West Germany to the United Nations as a "great service for peace," and urged diplomatic recognition of the two Germanys. The West does not recognize the Communist East German regime.

"Mankind is on the brink of tragedy of another war," Khrushchev said.

He noted that the Soviet people had lost millions of casualties in World War II and "will take determined steps to prevent a new world war."

He accused the West of a "lack of realism" in refusing to recognize the existence of two Germanys, and said this issue cannot be solved by war—only by negotiations.

Palm Springs Airport Now Owned by City

The people of Palm Springs now officially own their own airport.

In ceremonies at Palm Springs City Hall this morning, the Agua Caliente Tribe presented to the city the patent for 520 acres of land in Section 18.

With a stroke of the pen, Mayor Frank Bogert signed the acceptance of the patent and the title to the airport was turned over by Indian Tribal chairman Eileen Miguel.

Acceptance of the land by the city, and of the \$3,000,000 by the Indians, set the stage for the city to acquire the funds from the U. S. Government, which will be its participation in the project.

More Coming

Tom Kieley, chairman of the Airport Commission, said this morning that with the acceptance of the title to the land, the city can now proceed with the purchase of the 120 additional acres needed in Section 18, using government funds, then can hit its full-scale development of the airport facilities.

Immediately after the purchase of the additional 120 acres, the administration will apply to the government for further assistance on the project, and that money will be used for the airport facility development.

The Airport Commission is holding closely to promises made to voters in March, when it said that the airport would be self-supporting. In the case of every matter taken under consideration, this has been predominant.

Parking Plans

Kieley said that only this week the commission returned to the planning commission all its plans for development of the parking area, which is to be one of the first steps in the improvement of the facility. The airport group has asked that new plans be drawn to show sufficient parking for not only users of the airport, but for employees of the airport and storage of car rental automobiles.

Ex-Circus Head Indicted on Tax

NEW YORK — Insurance broker Stewart Hopp of Marin County, and Palm Springs, and one time president of Desert Circus, has been indicted by a Federal Grand Jury on a conspiracy charge in connection with income tax evasion.

Three other persons were also indicted in the multi-million-dollar case.

Auto Workers And GM Try For Settlement

DETROIT (UPI) — The United Auto Workers and General Motors tried today to settle 16,000 plant level disputes, including a violent Pittsburgh strike, which could hold up final agreement on a new contract.

The UAW and GM Thursday announced economic terms of a new three-year contract for 310,000 workers. The settlement would mean 12 cents an hour in workers' paychecks this year alone, the UAW said.

Both sides emphasized that the national economic agreement, patterned after a recent American Motors contract, would not go into effect until the local problems were solved.

UAW president Walter P. Reuther and GM vice president Louis G. Seaton said they hoped the plant disputes could be settled soon. But there was an air of pessimism on the union side, particularly in view of a violence-marked Pittsburgh strike.

Workers went on wildcat strikes at the Pittsburgh plant and two other key stamping plants at Mansfield, Ohio, and Marion, Ind., when the UAW extended a strike deadline from last Wednesday to next Monday.

Seaton warned Reuther Thursday to settle the walkouts or GM would have to close down all car operations in a matter of days for lack of parts.

The workers at Mansfield and Marion agreed Thursday night to reopen their plants. But trouble broke out at Pittsburgh which stayed on strike.

A picket was struck by a plant manager's car. And a union leader said he was beaten by strikers when he tried to escort a GM official through the picket lines.

News In Brief

BERKELEY (UPI) — The amount of radioactivity in the atmosphere over California has remained normal since the Russians resumed atomic testing, according to the state Health Department.

The department said its smog-testing stations in Berkeley and Los Angeles found no additional radioactivity in its twice-daily sampling of air, but would continue to check for the possibility

of atomic fallout drifting over the state.

SAN LEANDRO (UPI) — A Los Angeles man who charged that two California Highway Patrolmen refused to help save the life of his baby was jailed here Thursday on two traffic warrants, according to police.

"We didn't know he was the same man," said Police Capt. Whitney Rosasen. "He told us about it."

State Welfare Grants Okayed For \$75,000

SACRAMENTO (UPI) — The state Social Welfare Department Thursday approved grants totaling nearly \$75,000 for special welfare counseling and study projects in Southern California.

Director J. M. Wedemeyer said the grants will be used during the current fiscal year. They include: —A \$13,426 grant to launch a three-year pilot study in counseling services for teen-agers and their families in the San Fernando Valley area.

—Homemaker welfare services to families in need in the Los Angeles area, \$30,000.

—A one-year pilot project in group counseling for young divorcees with children in San Diego County, \$2,240.

—Continuation of a training program for professional child care workers in Southern California children's institutions, \$13,670.

—Continuation of a special divorce study project in San Bernardino County, \$13,860.

The grants are part of a \$970,000 in Federal Child Welfare Service funds allotted to California.

SAN FRANCISCO (UPI) — The state Board of Education ended its two-day meeting in San Francisco today, after turning down a recommendation that all persons applying for teaching credentials or for renewal of credentials be queried about membership in the Communist Party.

The board ruled against a subcommittee's recommendation that such blanket questioning be inaugurated. The 10-man board decided that such questions should be asked only on a selective basis, and only of persons applying for the first time.

WASHINGTON (UPI) — The Weather Bureau predicted today that radioactive debris from the first of Russia's new atomic tests will move over the Atlantic Saturday after crossing the northern United States.

The first test was detonated in Central Asia Sept. 1. Debris from the third Soviet test, exploded in the same area Sept. 5, now is approaching the Aleutian Island chain which curves into the Pacific from Alaska.

MONTEREY (UPI) — The possibility of California going into tourist promotion may come before the state Assembly Ways and Means Committee.

Assemblyman Robert Crown, D-Alameda, raised the question of a state tourism agency Thursday, when members of the committee met here to organize subjects for its study during the next two years.

Indio Newstands Robbed of Money

INDIO — Local police reported the theft of money from a total of seven newstands in the Indio area last night.

Almost all the stands belong to Los Angeles newspapers, and they had been broken open and robbed of the change in the coin boxes.

Both Palm Springs and Indio areas have experienced an up-trend in the theft of money from local newsstands.

DESAPIO POWER SNAPPED IN NEW YORK BY REFORM GROUP

NEW YORK (UPI) — Carmine G. DeSapio, dapper boss of Tammany Hall with a "kingmaker" record, lost his grip on the powerful New York Democratic organization today when a reform ticket swept the party's primary.

DeSapio was toppled from power with a one-two punch thrown by Mayor Robert F. Wagner and a 43-year-old Harvard-trained lawyer, James S. Lanigan, who campaigned against "boss rule."

Wagner, supported by former Sen. Herbert H. Lehman and Mrs. Eleanor Roosevelt, beat the Tammany choice for mayor, state Comptroller Arthur Levitt, by more than 150,000 votes. And, Lanigan trimmed DeSapio for the leadership of a Greenwich Village assembly district.

The final count from the city's 4,700 election districts showed Wagner beat Levitt by a vote of 451,458 to 291,672. Lanigan defeated DeSapio by a vote of 6,165 to 4,745.

"We shed no tears," DeSapio said. "These things happen in politics."

"DeSapio must go now," Wagner said in a victory statement.

The 51-year-old mayor, flexing political muscles, said other party "bosses" should be ditched with DeSapio in a complete overhauling of the Democratic organization.

Wagner did not spell out plans for revamping the party's leadership but may seek and get help from President Kennedy. The President has been dissatisfied with the New York organization but kept hands off in the primary.

The overthrow of DeSapio was only one of the many national political implications of the upset Wagner primary victory.

Kennedy forces now get the chance they have been looking for in shaping an organization to head off the White House ambitions of Republican Gov. Nelson A. Rockefeller.

U.S. Troops on Paar Show; Defense Asks Explanation

WASHINGTON (UPI)—The Defense Department asked the Army today for an explanation of the use of U.S. troops to aid in the filming of a Jack Paar television show at a touchy border crossing in Berlin.

Arthur Sylvester, assistant defense secretary for public affairs, said that if reports of the incident are correct it was a "disgraceful performance." He said the White House also is concerned about the matter.

Army headquarters repeated a statement made by an officer in Germany that Paar was granted permission to film "an operational changeover in units" and "took advantage of the situation."

Reports from Germany said six officers and about 50 armed troops took up positions at the Friedrichstrasse crossing Thursday while Paar filmed a show to be released in the United States next week.

Sylvester said he has been getting protests. White House press secretary Pierre Salinger said he had talked to Sylvester about the matter.

"We are engaged in the most serious business in Germany, with charges of provocative incidents involved," Sylvester said.

"I thought it naive to say the least on the part of the Army to give the Communists a chance to watch our filming of a light TV show under those circumstances."

CHURNING ALONG, Britons S. Gordon Amor and Jerry Amer drive their heavily modified Volkswagen "Marilyn" through the waters of the English Channel. Despite the fact that all doors and windows were sealed with waterproofing, a water-proof entryway attached to the roof, a propeller hooked to

its engine and a pump installed to keep the "cabin" dry, the car ran into trouble 12 miles from Calais, France. An accompanying vessel was forced to take "Marilyn" in tow, but it sank a few miles off Dover, England. (UPI Photo)

Brazil Premier Tackles New Cabinet Task

SACRAMENTO (UPI)—California drivers who can convince judges they are "hardship" cases will get a break starting next Friday.

On that date, 91 days after the 1961 Legislature adjourned, a series of new laws adopted by the 1961 Legislature and signed by Gov. Edmund G. Brown go into effect.

Two of the bills deal with drunken drivers or potential drunken drivers.

The most controversial of the two was introduced by freshman Assemblyman James Mills, D-San Diego, to end the policy of former Motor Vehicles Director Robert I. McCarthy of levying blanket suspensions of drivers' licenses.

Under the old law, the Department of Motor Vehicles had power to suspend for a six month period the licenses of first offense drunken drivers. And McCarthy used that power without taking into account the effect on the employment or financial situation of the person involved, and regardless of court action.

Joao (Jango) Goulart, 43, who was sworn in as figurehead president of the new regime Thursday, will not take office formally until the cabinet is approved by congress.

State Drivers to Get Break Soon

WASHINGTON (UPI)—The Pentagon has disclosed that Maj. Gen. Edwin A. Walker, former commander of the 24th Infantry Division, was a member of the controversial John Birch Society.

However, an Army official report on the events leading up to Walker's loss of command maintained there was only a coincidental similarity between the Birch Society's program and

Walker's own "pro-blue" anti-Communist indoctrination program for troops.

The Army report, signed by Lt. Gen. Frederic J. Brown, inspector general for the case, was made public Thursday after it was supplied to the Senate Armed Services Committee. The committee is considering whether to investigate an alleged conspiracy to muzzle anti-Communist statements of military leaders.

The Army's report on Walker, an 80-page document dealing with a variety of allegations, included the conclusions on which the much decorated officer was given an official admonishment and stripped of his European command. It said:

—Walker made derogatory statements, alleging leftist influence on former President Truman, former Secretary of State Dean Acheson and Mrs. Eleanor Roosevelt and similar statements against three noted newsmen, Edward R. Murrow, Walter Cronkite and Eric Sevareid.

—Walker violated the law and Army regulations by attempting to influence the 1960 elections by referring his troops to a voting analysis with a "conservative bias."

GEN. E. A. WALKER MEMBER OF BIRCH SOCIETY—REPORT

WASHINGTON (UPI)—The Pentagon has disclosed that Maj. Gen. Edwin A. Walker, former commander of the 24th Infantry Division, was a member of the controversial John Birch Society.

However, an Army official report on the events leading up to Walker's loss of command maintained there was only a coincidental similarity between the Birch Society's program and

Miss America Contest Goes Sports Today

ATLANTIC CITY, N.J. (UPI)—The all-American beauty contest gets down to a couple of all-American, sports today—old-fashioned baseball and new-fashioned twirling and strutting.

That last is "the fastest growing girls sport in America," said Miss Tennessee, Rita Louise Wilson, 20. "It's second to the Girl Scouts nationally as an activity."

But neither she nor any of the other six Miss America contestants who claim talents as twirlers and strutters is going to show them off in the contest for the nation's beauty and brains crown and \$35,000 in scholarships.

"Everybody enjoys it," Rita said sorrowfully. "but everyone says, 'Oh, I could do that, too.'"

So she went into training with hillbilly singer Dorothy Shay and will stand still and sing tonight.

Baseball is simpler. Miss Ohio, Darlene Theresa DiPasquale, 18, a Cincinnati Redlegs fan will give a dramatic reading called "Betty at the Baseball Game," about a bride who isn't quite a fan.

Singers on tonight's bill include red-haired and freckled Susan Ann Henryson, 19, Miss California; and Joanna Katherine Lester, 20, Miss Montana.

Thursday night's talent and bathing suit winners were a pair of tall blonde beauties—Miss Utah, Carolyn Deann LaSater, 19, and Miss Arkansas, Francis Jane Anderson, 19.

Carolyn took the talent contest with an original pantomime dance which she also performed to win her Miss Utah crown.

See French Use Of Weapons OK

WASHINGTON (UPI)—Congressional leaders today forecast approval of President Kennedy's request that French NATO troops be allowed to train in the use of American atomic weapons.

Kennedy told Congress Thursday that France had agreed to let its NATO forces now stationed in West Germany learn how to handle the atomic weapons. But it still will not allow U.S. atomic devices on French soil.

Under the agreement French forces would be instructed and trained in the use of weapons capable of delivering nuclear warheads, principally artillery and rockets. The actual weapons and warheads will remain under U.S. control.

This country already has similar training agreements with other NATO nations. But U.S. law requires specific consent of Congress to expansion or change in arrangements concerning foreign access to atomic energy information.

Other congressional news: Postage: The House Rules Committee held the key to prospects for quick House approval of a

five-cent stamp for first class letters and other postal rate hikes. The compromise legislation sought by President Kennedy cleared the House Post Office Committee Thursday.

USIA: Sen. Thomas J. Dodd, D-Conn., demanded the immediate dismissal of a U.S. Information Agency (USIA) expert on Russia. He said the official "advanced the theme that we are not too different from the Communists."

now—your dog can take pills to stay tick and flea free all season long

imagine
a pill that
kills fleas,
lice,
even ticks

Veterinarians now have ECTORAL, the incredible new pill your dog simply takes with his food. ECTORAL works from the inside out to kill fleas, lice, even ticks that come in contact with your dog. Just one dose of ECTORAL every week can control these parasites all season long.

ECTORAL is the most new external parasite ever had—an extraordinarily effective way to get rid of ticks, fleas and lice. It was tested for over two years by veterinarians in every region of the United States. Even though ECTORAL is more effective, it is just as economical as old-fashioned powders or sprays—and, for more convenience.

During warm weather, disease-carrying parasites lurk everywhere, waiting to attack your dog. Ticks hide in weeds and brush. Fleas hide between floor boards, in the dog's bedding, under rugs. And any passing dog may be carrying these parasites.

Now—all season long—you can keep your troublesome, dangerous pests under control—with ECTORAL. Your veterinarian will tell you how to use ECTORAL. (You can find his address under "Veterinarians" in the yellow pages of the telephone directory.)

ALMANAC

By United Press International
Today is Friday, Sept. 8, the 251st day of the year with 114 to follow in 1961.

The moon is approaching its news phase.

The morning star is Venus. The evening stars are Jupiter and Saturn.

On this day in history:

In 1565, a Spanish expedition landed what is now St. Augustine, Fla., and founded the first permanent settlement of Europeans on the North American continent.

In 1855, the Crimean War ended.

In 1900, a tornado and tidal wave smashed Galveston, Tex., killing 6,000 persons and doing millions of dollars worth of damage.

A thought for today: Greek philosopher Aristotle said: "Reasoning leads us to choose what is useful, moral goodness leads us to choose what is noble."

Industrial Council Hears Employment Trend Facts

BANNING — The emphasis on heavy industry to provide new jobs and community growth in this nation is in direct conflict to the economic trend, a student of the employment picture told the Industrial Council of the Riverside Board of Trade Thursday night.

Al Lynch, manager of employee communications for Kaiser Steel, pointed out that production industries in the United States actually declined in employment from 1948 through 1960, while service industry employment climbed steadily upward.

Speaking at the dinner meeting in the San Geronimo Inn here, Lynch emphasized that communities seeking industrial growth should not confine their thoughts to such production industries as manufacturing, construction, agriculture and mining. The number of jobs in those industries declined from 25,976,000 in 1948, he said to 25,552,000 — a drop of 424,000 jobs.

On the other hand, he pointed out, the increase in service industries — finance, government, service and miscellaneous, transportation and utilities, wholesale and retail trades — climbed from 26,432,000 to 33,308,000 in the same period — a 6,876,000 rise.

Lynch reached a three-point conclusion to his study of employment trends in this country:

1. Employment in production industries (barring interference of war conditions) will at best increase at a much slower rate than will employment in service industries.

2. Even within production industries, the proportion of non-production to production workers will tend to increase.

3. Employment in service industries will continue to enjoy an upward surge.

Earlier in the meeting, Wilkes Lambeth, president of the board of trade, presented plaques of appreciation to Bob Williamson, chairman of the industrial committee from 1957 through 1960, and Armand Bruno, 1960-61 chairman.

The council also saw a colored moving picture of Southern Pacific Railroad's activities in encouraging industrial development in the areas it serves.

Desert Brokers Appointed to Realty Institute

The National Institute of Real Estate Brokers with headquarters in Chicago, has announced that S. Ted Smith, John Moon and L. Thorla Lake, all members of the Palm Desert Board of Realtors, have been appointed local representatives of the institute, which is composed of 16,000 realtors.

This is the largest affiliate of the National Association of Real Estate Boards and has as its main objective the education of its members to serve the public better.

Smith has been appointed chairman. The most important duties will be to stimulate panel discussions on brokerage problems at real estate board meetings and during state conventions. Through such discussions, realtors are kept constantly up-to-date on new and proven methods in realty advertising, financing and taxation. They are thus better able to serve the public in home buying and other realty investments.

Thornton Kivett is membership chairman for the state of California. L. Thorla Lake was also recently appointed Palm Desert representative of the International Traders Club, an affiliate of the National Institute of Real Estate Brokers.

William Christian, Homer Hilton and Richard Mechleng, Field, headmaster at the school, has also engaged Miss Ruby Loughran, Mrs. Roberto Armino, William Kellogg and Curry Love to complete the staff of instructors. (Desert Sun Photo)

Planners OK Design Of New DMV Building

Palm Springs Planning Commission has put its stamp of approval on the architectural design of the new Department of Motor Vehicles building to be constructed at the Civic Center.

At its regular session, the Commission denied a request from Our Lady of Solitude Catholic Church for a conditional use permit to construct a service station on the southwest corner of Palm Canyon Drive and Alejo Road.

An application by Robert Goodwin of Wil Wright's ice cream parlor was given approval by the commission to install 30 outdoor seats in conjunction with the new business.

Edward S. Shea's application for a conditional use permit to construct and operate a nursing home near Vista Chino near Via

Miraleste, was approved by the commission.

A zoning study for vacant property adjacent to the Tennis Club has been held for a public hearing which will be set before the Commission.

The Commission approved an architectural design for Frances and Joe Patencio to construct a laundromat on the north side of Tahquitz-McCallum in Section 14, as well as a request from Edith Ritter for an extension of a performance bond to construct masonry walls at the nursery school at 490 Compadres Rd.

Some 15 more items were held up by the commission, and were expected to be handled at a special adjourned meeting today.

Airplanes to Get Survey For Fatigue

WASHINGTON (UPI)—Maintenance crews today began inspecting about 75 older model Constellation used by six U.S. airlines for any sign of metal fatigue in tail assemblies.

The "purely precautionary" inspection followed unofficial reports that structural failure in the tail assembly caused last week's crash of a Trans World Airlines Constellation near Chicago.

The Federal Aviation Agency (FAA) wired its field inspectors to ask airlines operating older "Connies" to check key structural parts in the tail assemblies, including rudders and horizontal stabilizers.

An FAA spokesman emphasized that the inspection was "purely precautionary." He said structural failure was strictly a theory at present and added that the Civil Aeronautics Board has not yet established a definite cause of the Chicago crash.

School for Retarded Children Will Open In Cathedral City

A tuition-free training center for severely mentally retarded children in the Palm Springs School District area will begin at 9:30 a.m. Wednesday in the educational plant of the Cathedral City Community Church, it was announced today by J. M. McFadden, president of the Palm Springs Foundation for Mentally Retarded Children.

Mrs. J. A. Deason, chairman of the Foundation's school committee, announced the classes were set with the hiring Thursday of Mrs. Hazel B. Daniel, a veteran teacher of exceptional children, to conduct the program.

The Community Church Board of Sessions announced its approval of use of educational facilities after a Wednesday meeting headed by board chairman M. O. Woody.

Two-Year Effort

The training center, opened after two years of local work by the foundation group, will be open to children from six to 21 years of age.

"This work enables the children to develop their capacities, and to understand themselves. It is a group experience, and can prepare the youngsters for additional training," Mrs. Daniel explained.

A current resident of Banning.

TEACHER to head training center for mentally retarded children is Mrs. Hazel B. Daniel, who retired last year from Pasadena system. (Desert Sun Photo)

Mrs. Daniel retired from the Pasadena school system in June 1960. In Pasadena, she worked for six years with retarded children, and for 15 years with gifted children. Throughout her work, she kept abreast of work with retarded children. For four years, Mrs. Daniel taught in Calhoun School here, on leave of absence from Pasadena. She received her training, with a major in work with exceptional children, at UCLA and Columbia University, New York.

Parents Informed

The Foundation has written local parents of severely mentally retarded children known to the organization inviting enrollment of the children in the training program. Mrs. Amerette Anderson, member of the school committee, stressed that any parents of severely mentally retarded children not contacted by the Foundation write or call Mrs. Deason by Monday.

day if they wish a child entered in the five day a week program. The Foundation - operated training center will operate from 9:30 a.m. to 2:30 p.m. Monday through Friday, with a school year calendar approximately the same as that of the Palm Springs Unified School District.

Widely Supported

Work of the Palm Springs Foundation for Mentally Retarded Children, emphasized earlier this year in a series of Desert Sun articles, has gained endorsement from major religious groups in the area, as well as civic leaders. The Foundation had sought a class within the Palm Springs school system for this fall. The Board of Education appointed a citizens' committee to study feasibility of the strongly state-aided program.

McFadden stressed that the Foundation will proceed with the tuition-free program now, but explained that tax deductible donations for support of the program may be made at any time throughout the year directly to the audited Foundation.

Civil Defense Needs Communications Help

Frank Chalfont, deputy director of civilian defense for communications, issued an appeal today for experienced communications people to register for CD duties in case of emergency.

In order that the local CD can fill out its roster of available, experienced communications people, it was asked that all men and

women who are not employed in telephone company work or committed to vital civil defense duties contact the CD communications director at the Palm Springs police department.

The list will cover an area which is roughly comparable to the area within the Palm Springs Unified School District.

Particularly desired are the names of all people who have had message handling experience, such as telephone operator, cryptographic answering service, radio dispatching and armed services message center experience.

Chalfont has asked that any who feel that they could contribute to the local CD communications effort call the department and leave their names and telephone numbers. It was especially requested that only this information be left at this time and that there be no discussion of capabilities or functions with the people answering the telephones.

Information on Polio Shots to Sought Here

Information on polio shots will be collected from a number of local families in connection with the September Current Population Survey, the U.S. Census Bureau announced today.

The information is being collected for the United States Public Health Service so that estimates of the number of persons who have had polio shots can be brought up to date. The polio shot questions, to be asked of persons under 60 years of age, are: Have you had any polio injections or shots? How many shots have you already had? When did you get the latest shot?

TOOTING HIS OWN HORN is Jay North, otherwise known as "Dennis the Menace," who begins his third season on CBS-TV next month. Jay, who in real life is far from being a menace, shows his acting mettle by portraying the typical neighborhood terror.

Menacing Dennis On Stage Tough, Off Stage Docile

HOLLYWOOD — One of the standard canards of the press agents here in the film capital is that the star of a TV series is actually the living embodiment of the character he portrays. Thus, the actor who plays a tough, two-fisted crime buster, we're told, actually spends all his spare time boxing and practicing karate, and the faithful father in the warm situation comedy, we're told, is really a loving family man at heart.

One of the glaring exceptions to this is Jay North, the lad who plays Dennis the Menace.

The truth was pinpointed on young Mr. North's first trip to New York after the start of "Dennis the Menace" on CBS-TV.

Jay was emerging from his hotel, (head for the Ed Sullivan show) accompanied by his mother and a small entourage, when he was accosted by a horde of fans pleading for autographs. "Oh, thank you sir," he said, "ma'am," young North declared as he returned each laboriously completed signature. Finally after 10 minutes, he was hustled into a cab, with the fans hot on his heels.

"I'm awfully sorry, sir," young North apologized. "I really have to go now. But please write to me, and I'll surely answer."

Amazed at this genteel manner, one young man poked his head into the cab window and declared, "Dennis, you're no menace."

Oh, yes, in the days before "Dennis the Menace" made its TV debut, the word went out that the then unknown boy who'd finally been cast in the coveted role was a real Dennis, an incarnation of the Hank Ketcham cartoon. But soon thereafter it seeped out that in real life Dennis was no menace.

Jay North's gentleness has become a standing gag at the Screen Gems studio where the series is produced. And now, with the show going into its third year, still in the top ten, his kindness is reaching the proportions of a legend.

On one trip to New York, just before Thanksgiving, a young fan presented Jay with a live young turkey, which he immediately christened "Mr. Wilson." He insisted that Mr. Wilson accompany him on the rest of his tour, so the bird was shipped ahead to Philadelphia and then on to Chicago, where it became the first turkey ever to get a private room in the swank Ambassador Hotel.

At dinner at the Ambassador, Jay was reciting the glories of his new pet, Mr. Wilson, to an indulgent reporter, describing how he planned to bring the turkey along to the studio each morning. In the midst of his tale, the waiter pulled a cart up the table piled high with Thanksgiving repast, a turkey with all the trimmings. "Well," exclaimed the reporter, "here comes Mr. Wilson now. Ouch!"

Mrs. North had kicked him under the table, a new twist in press relations. The turkey, incidentally, never did get to the studio with Jay. Upon arriving in Hollywood, Mr. Wilson was shipped to a nearby turkey farm, where it laid an egg. Untroubled, Jay renamed it Mrs. Wilson.

Cops And "Robbers"

MODESTO, Calif. (UPI)—Dep. Dist. Atty. Don Cantwell was driving past a furniture store south of here when he heard a burglar alarm.

After phoning the sheriff's office, Cantwell drove back to the store. Moments later Deputy Sheriff Jim Negley drove up and noticed the "suspicious" Cantwell in his car.

Negley ordered Cantwell out at gunpoint and made him lean against the car. After a few uncomfortable minutes, the Deputy D.A. managed to convince the man they never did find out why the burglar alarm sounded.

Total Loss

TULSA, Okla. (UPI)—A police photographer stood by, camera in hand, while a vat of moonshine liquor was dumped. His flashbulb flared as he snapped a picture for evidence.

Back at station the identification man surveyed his shoes and trousers, both saturated with illegal booze. Then he checked the camera, found it was improperly loaded, and there were no pictures.

Twenty Dollar Statue Is Worth Fortune To Holders

By RONALD REAGAN
HOLLYWOOD (UPI) — That fragile little statuette called the "Oscar"—valued at less than \$20 in terms of its mineral content—is worth a fortune to the movie-going and television watching public.

Say what you will about "Oscar," the men and women fortunate enough to share his ownership know they have been chosen by their peers as the best actors and actresses in the business.

The public knows it, too. Whenever I have traveled—and I've been doing a lot of it in recent years for "The General Electric Theater"—these questions always come up:

"How and why does this show get so many Motion Picture Academy Award winners to appear?" Let's answer these one at a time.

First of all, we go to the star—the "Oscar" winner—with a strong idea for a story. Assuming he or she likes the idea, we tailor the script to the star's talents so that it fits him like a \$300 suit.

Reveal Latent Talent
Occasionally, the role which won a star his prize did not display all his latent ability. If we feel that is the case, we try to bring this buried talent to the surface in our script.

These are the main reasons we have been able to get such a remarkably high number of "Oscar" winners to appear on our show. It's as simple as that.

The answer to the second part of the question is equally simple: We put "Oscar" winners in our shows for the same reason people ask about them. I think the public naturally is curious about the top personalities in any field—

science, business, the military—add the glamour of acting and you have a ready-made audience.

We think we've proved our first premise by the fact that 34 "Oscar" winners have been on the show during our first seven years on the air.

Ratings Prove It

The second seems to have been proved by ratings—invariably at least a little higher whenever we present an "Oscar" winner in one of our plays.

One Academy Award-winner we had been trying to get for some time was Mickey Rooney. Last season we offered him a script in which he would co-star with his young son, Teddy, whom Mickey is very devoted to, and he fairly leaped at it.

The result was one of our most moving shows, "The Money Driver." It was the first and only time Mickey and Teddy ever appeared together on television.

That's the way good shows are made; there is no mystique, simply a continuous effort to find the strongest possible story for the most appropriate star—and, of course, a watchful eye for what the public wants.

And in show business, as in other fields, this maxim holds true: "Stay with something as long as it's successful."

Starting our eighth season this fall, we see no reason for change.

A rose between two thorns, Alice Faye rose on the festive occasion to announce that she will leave for Texas tomorrow, to film "State Fair."

Gypsy Is In Rehearsal For 'Threepenny'

NEW YORK (UPI)—Gypsy Rose Lee is rehearsing to go on tour with a new company of "The Threepenny Opera," the modern musical classic by Kurt Weill and Bertold Brecht which has been playing steadily at the De Lys Theater in Greenwich Village since September, 1955.

The star will take the role of Jenny Diver which was played in the original German production some 30 years ago, and also from time to time at the De Lys, by Lotte Lenya, widow of Weill.

Producer Kermit Bloomgarden has signed Constance Bennett to star in the touring company of "Toys in the Attic," which will start a 36-week national journey Sept. 27 in Wilmington, Del.

Co-starred with Miss Bennett will be Anne Revere, who was in the original cast, and Scott McKay, who will have the role created by Jason Robards Jr.

The producers of "The Caretakers" due at the Lyceum Theater Oct. 4, are going to try to lure to their attraction those who have found even the least expensive balcony seats beyond their means in recent years.

CRACKDOWN ON SLUGS

Van Heusen Hosts Larry Foy Plays

While academy award winning composer Jimmy Van Heusen hosted a party in the Garden Room of the Biltmore in honor of pianist Larry Foy's return to the desert, Foy toasted Van Heusen and entertained guests with a medley of Van Heusen's always-great tunes.

Last year's academy award nominee "Second Time Around" was requested twice by a man who knows his music, Frank Sinatra, and when Sinatra requested "Laura," he delighted diners by complementing it with lyrics.

Following "Life is Just a Bowl of Cherries," Foy played "But Beautiful" for Alice Faye, who announced she's leaving tomorrow for Dallas, where she'll step on the "State Fair" set to play Pat Boone's mother.

Joining Sinatra and Alice Faye as Van Heusen's guests were Dr. and Mrs. Red Krone; Henry and Peggy Price (he's president of Hacienda Airlines); Mack Grey (he's Dean Martin's manager); Trans Continental president Irvin Hermann; Lona Mitchell and Lori Klydbine.

ACCIDENT DEATHS DROP

CHICAGO (UPI)—Deaths from all types of accidents during the first six months of the year declined 4 per cent from the same period of 1960, the National Safety Council has announced.

More Awards to Audrey Hepburn

HOLLYWOOD (UPI) — Actress Audrey Hepburn still is receiving awards for her performance in "The Nun's Story." The latest was the David di Donatello award from the Italian government. The actress' husband, Mel Ferrer, will fly to Europe to accept the honor on her behalf in July. Miss Hepburn will be unable to accept the honor personally because of her work in "Inferno" which costars Shirley MacLaine.

Epsteins Home from Vacation

Fae and Harry Epstein are back at their Paseo de Anza home. After attending the City of Hope convention in Los Angeles in July, they went to Encino to visit her daughter and son-in-law, Mr. and Mrs. Sherwin Graber. They spent some time at the Club Del Mar in Santa Monica and made several coastal trips.

WOMEN of The Desert

HILLY CRAWFORD

Women's Department Editor

Friday, September 8, 1961 THE DESERT SUN Page 5

AFTER SCHOOL FUN themes this pose of, from left, Sheri Good, Susan Baldwin and Pat Eaton, who are wearing some of the clothes they will model Monday in the Robinson's style show that will be a feature of "Howdy Day" at the High School. (Desert Sun Photo)

Howdy Day to Feature Style Show

"HOWDY!" That's the password Monday, September 11, when serious seniors, jolly juniors and sophisticated sophomores put aside their school eldership. That's the day when every freshman coed at the Palm Springs High School will be greeted in true Palm Springs manner.

Kay Kunkel, Girl's League president, announces that each girl is to bring her own sack lunch and watermelon and punch will be served by the Big Sisters, a Girl's League group, with Laurie Paul as chairman.

Biggest feature of the day will be a unique and unprecedented fashion show. "The Fashion Run Down," presented by Robinson's, Bernice Woodard, store manager, who views fashions in New York, Paris, Rome and Florence annually, will be the commentator. The show will be held at one p.m. at the Palm Springs High School auditorium.

Models, many of them graduates of the Harry Conover Training Center, will be Carol Sage, Karen Gore, Susan Schoell, Doris Sing, Susan Baldwin, Judy Jorgensen, Sheri Good, Ann Humphreys, Pat Eaton, Pam Williamson, Mary Margaret Sitter and Vicki Biss.

The latest clothes for campus wear, football games, barbecues, weekend city travelling and desert parties will be modeled.

A special invitation has been extended to the mothers and families of all the students in high and junior high schools. Junior High School girls are invited as special guests.

Pants move in two directions. Stretch pants are the slimmest, sleekest ever. The newest incoming trend is the wider leg pant cut straight down from the knee and belting ever-so-slightly at the ankle. Depending on the anatomy, pick to suit your shape.

Around Town

... with Hilly Crawford

This is the time of the year when the desert sunsets are sensational, flaming up back of the dark mountains like a forest fire out of control, and ebbing away like gray smoke. The sun that is flaring up on the other side of the world, leaves purplish tinges that melt gently into dusk. The evening star, blazing bright, materializes in the night sky, and the mountains are a dark circle around the desert. Soon the desert stars are out in all their glory, age-old constellations that outline the modern neons. There's a peaceful feeling to the desert

most rainless years on the desert.

Ernie and Bernie Young, who have made so many friends here during the winter months, when they occupy their El Mirador bungalow, are up in Montana, where they've been ever since they left Palm Springs last spring. Ernie's been busy with his iron mines and Bernie, who says she feels like an old cowhand from her long stay in Montana, is yearning for their beautiful home in Hibbing, Minnesota, as Montana's summer thermometer has been registering a high 90 to 100 degrees.

Cari (Mrs. Bob) Rosburg, who was a fellow guest at the Waikiki Hotel, in Honolulu this summer, along with their cute young daughter Delby, asked to be remembered to the Eddie Susallas, the George Barretts, Louise Nicolotti and other friends she has made in frequent visits here. The Rosburgs, who were at Bermuda Dunes for several weeks last November, are now living in Portland, where he is golf pro with the new Meriwether Club.

Barney Gengenbach and his sister and Victoria Cutait (she's the sister of the famous surgeon) spent four days at his Thunderbird home after their return from a European tour and before they went over to play golf along the coastline courses.

Evelyn (Mrs. Sydney) Schiff, who is on her usual summer trip to Europe, has been in Paris and in Spain and this week was to go to Abano, Italy for her yearly visit to the mud bath spa. She will join Sydney and Co and Maggie Thornton in Rome September 19, where they will have a semi-private audience with Pope John.

Walter and Roberta Sibbert, who were seaside at San Clemente for a month, came home in mid-August to move out of the Cactus Road house which they sold last spring. The Sibberts are now nicely settled in Merito Manor on Merito Place.

Mary and Allan Jones, who have been in Beverly all summer, are off to Chi to attend a

Members of Chi Theta Chapter of Beta Sigma Phi were entertained at a buffet supper at the Sun-air home of their president Mrs. John W. Down.

The affair which launched the sorority activities for the 1961-1962 season gave members the opportunity to discuss vacations and exchange ideas on forthcoming cultural programs, social activities and charity events.

First regional social event will be the Mission Counties Council breakfast on September 24, at the Mission Valley Country Club. The Founder of Beta Sigma Phi, Walter W. Ross and his wife from St. Louis, Mo.

First regular meeting of Chi Theta Chapter is called for September 14, at the Down home. The cultural program will be presented by Mrs. Carl Jackson and Mrs. Harry Estel.

Members attending were Mmes. Harry Estel, Pete Breakey, Ed Donahue, Ralph Hammer, Jack Porter, Tony Jamulis, Al Patane, Wayne Kizer, Don Shelton and Carl Jackson.

Completely unlike the drab gray suit that discourages many a coed from entering the college swimming pool, a new tank suit holds its shape without stretching or sagging. The suit comes in jade green, royal blue, mandarin red, black and navy. The tops even stay up without straps.

Fit ironing board covers snugly by lacing a cord through safety pins attached to the edges of the cover on the underside of board. Line up pins opposite each other.

New Owners Are Desert Visitors

On their first desert visit, the Bernard Bergreens of New York mixed business with pleasure, while staying at the Riviera Hotel. Bergreen was here to sign the papers which made him and his brother, Morris Bergreen of New York, owners of radio station KC-MJ.

The two brothers are law partners in New York, and Morris and his wife (she's also an attorney) are Racquet Club members.

Housing Program OK

Government Certifies Funding Plan

The long sought after certification of a workable program for community improvement of the City of Palm Springs, was received by Mayor Frank Bogert today.

U.S. Housing administrator Robert C. Weaver has determined that this community's program meets Federal requirements, and has issued the determination and certification for a period of one year, expiring on Sept. 1, 1962.

The certification means that Palm Springs can proceed with its program, under federal assistance, to utilize appropriate private and public resources to eliminate and prevent the development or spread of slums and urban blight; to encourage needed urban rehabilitation; to provide for the development of blighted, deteriorated or slum areas, or to undertake other activities as may be suitable employed to achieve the objective of such a program.

In a letter to Mayor Bogert from Melvin S. Frazier, acting Regional Administrator for FHHA, said: "The Housing and Home Finance Agency has a vital interest in the important task you have undertaken to make Palm Springs a better place in which to live and work. We believe that the Workable Program for Community Improvement is going to mean much to your community, and as you carry it through you will have our support."

DICK KITE, president of the Palm Desert Board of Realtors, reports activity in his area is picking up and board members look for a good season. The Palm Desert realtors continued their meetings through the summer and have been prime movers in community improvement.

Insurance Man Featured At Palm Desert Meeting

PALM DESERT — After the acceptance of three new members to the local Real Estate Board, the membership yesterday

heard special guest speaker Robert B. Fiskus explain real estate insurance programs.

The meeting was the regular session of the Palm Desert Realty Board, held at Firecliff Lodge, with Dick Kite presiding.

Fiskus, California Real Estate Association insurance man, told the group that insurance plans were available to CREA members, and explained their use.

Kite told the group that Palm Desert now has a total of 41 reservations for the vital CREA luncheon at the Palm Springs Riviera Hotel Thursday, and notified the membership that the local organization would not hold a meeting that morning.

Metal Lubricants

BELLEVILLE, N. J. (UPI) — Gold and silver may find new uses as permanent lubricants in machinery, officials of General Magnaplate Corp. believe. The company is experimenting with a system of bonding very thin layers of gold oxide and silver oxide to moving parts. It is claimed the parts then will operate indefinitely at speeds and temperatures as high as 1500 degrees.

GARDENING IN THE DESERT

Chemical Sprays Best For Fighting Insects

Gradually we are coming into the period of aphids and the many garden pests so be sure you have on hand a variety of insecticides; also make sure your hose sprayer is in good condition.

As reported in previous articles we have found Malathion very efficient against the well known pests. A mixture of Chlordane is helpful against ticks, termites, spiders, scorpions, roaches and ants; wireworms, cutworms and grubs can be controlled by dieldrin, captan will help keep off leaf blights, black spot, etc.

A mixture of Malathion, Lindane and D.D.D. (available at any of the local nurseries) has proven its use. By reading the instructions on each bottle the amateur gardener can control the mixture used in lawn guns. When spreading the mixture be careful to use it on the back of the leaves. A sulphur base fungicide is particularly effective on rose rust, black spot, and as a dormant spray for mites, leafcurl and blight; also effective in conditioning heavy, alkaline soil where acid-loving plants may be prevalent.

Watch Mixtures

It is well to bear in mind that chemical insecticides can be harmful to delicate plants if the mixtures are too strong. When mixing quantities carefully study the instructions printed on the label. It would be wise to cling closely to the amounts mentioned and avoid putting in a little extra for strength. You can feel assured that chemists who mix the insecticides have tested and changed the amounts of each until satisfied of their efficiency.

Haphazard spraying is a waste of time and material. Bear in mind there are as many insects hiding under the leaf as there are on top. While you are at it spray branches and trunks, tops and bottoms of leaves, and the surrounding soil. By following this system you will discover you will not have to spray so frequently.

Bottle Bush Is Hardy
Turning to the plants themselves we will take the Scarlet Bottle bush. This hardy plant will withstand temperatures as low as 22 degrees but don't look for a bloom during the winter months.

The rest of the year its scarlet bloom is picturesque especially if it has been provided with ample sunshine. In addition to resisting temperatures that are low for our desert it is also drought-resistant, adding to savings on the water bills.

As a member of a family of hardy shrubs the Flowering Quince—of which there are many—more than holds its own. Temperatures to zero seem to have little effect on this robust plant, reflected summer heat from walls or fences seem to have little effect on its growth.

Fire Plant Is Good

Shrub Aster (Fruticoccus) is another hardy plant. The sandy soil of our desert and full sunshine with a minimum of fertilizer is about all it asks for.

The Mexican Fire Plant is another hardy shrub that needs little care as to soil or irrigation. Actually it belongs to the poinsettia family but is not as tender and frail as its more resplendent relations, neither does it grow to their height or produce as large and spectacular bloom. It also differs in color and bloom, being a mottled mixture of red, white, and green. While the average desert-grown poinsettia requires some shade from the intense heat of the summer sun the Mexican Fire Plant grows under any conditions and thrives in full sunshine.

Projects & Personalities in DESERT REAL ESTATE

Friday, September 8, 1961 THE DESERT SUN Page 7

Local Boards To Hear Realty Chief

KENNETH H. SMITTEN, 1961 president of the California Real Estate Association, will make an official visit to desert area realty boards next Thursday in Palm Springs.

Members of the Palm Springs Board of Realtors meeting jointly with the other Boards of the 28th District, including Palm Desert, Cathedral City, Coachella Valley, Desert Hot Springs, 29 Palms and Yucca Valley, will be hosts to the 1961 president of the 34,000-member California Real Estate Association, Kenneth H. Smitten of San Francisco.

Smitten will arrive on Sept. 14 for a luncheon meeting to be held at the Palm Springs Riviera Hotel, according to Theresa Press, President of the Palm Springs Board. Smitten and his wife will be accompanied by CREA executive vice president H. Jackson Pontius, and Mrs. Pontius, together with Roy St. Leon of Palm Desert, CREA regional vice president for this area, and Mrs. St. Leon. CREA represents 167 real estate boards in California.

Smitten will talk on real estate business trends in California, Mrs. Press said. He will also comment on legislative proposals affecting real estate now being considered by the State Legislature. The CREA president has been actively engaged in real estate business in the San Francisco area since 1905. He served as president of the San Francisco Real Estate Board in 1953 and 1958, is a past vice president of the National Association of Real Estate Boards and also served on the executive committees of both CREA and NAREB.

"We are fortunate to have Mr. Smitten visit our community in his heavy schedule of travel to local realty boards throughout California," Mrs. Press said. Mayo Frank Bogert will give the official welcome for the City of Palm Springs and the 28th District. The meeting is open to all members of the real estate boards in this area and their invited guests. Active in all phases of real estate, Smitten is making a study of real estate conditions throughout the state and nation. He is particularly optimistic about real estate business in 1961 and the continued expansion of the real estate industry in California, Mrs. Press said.

Galvanized Steel Resists Rust

Galvanized steel describes steel which has been coated with zinc to make it highly resistant to rust and corrosion. This type steel is used to manufacture galvanized steel garbage cans, pails, trash burners, baskets, tubs and other durable household items.

The U. S. Public Health Service and virtually all state, county and city health departments have recognized galvanized steel garbage cans as approved refuse containers because the covered cans prevent disease-carrying rats and flies from feeding upon garbage.

CAREFREE APARTMENTS for retired citizens who prefer the leisurely way of apartment living, Palm City offers a cooperative plan. Attractive, roomy and comfortable, the apartments have every modern convenience to

make household chores a breeze. This arrangement allows residents more free time to enjoy the many recreational activities of Palm City.

Modernization Will Sustain Property Values

Increased emphasis on modernization of central city housing should help sustain building and property values in the 1960's, according to an article in the new issue of The Appraisal Journal, quarterly publication of the American Institute of Real Estate Appraisers.

The AIREA is an affiliate of the National Association of Real Estate Boards.

Author of the article, entitled "Economic Growth and Property Values in the Sixties," is Jesse W. Tapp, chairman of the board of the Bank of America and chairman of the Economic Policy Commission of the American Bankers Association.

"A reduction of inflationary pressures could mean the adoption of easier monetary policies which would increase the availability and reduce the cost of credit," in this decade, Tapp writes.

Noting that "for the coming decade as a whole we can look forward to a yearly rate of expansion in households that is about 25 per cent greater than that of the 1950's," Tapp points out that the 25 to 34-year-old age group — the home-buying age — "is expected to increase by almost 2.5 million, or 10 per cent, in the coming decade."

The age group in its early twenties, he says, will expand by six million, or more than 50 per cent, which will increase the demand for multi-family dwellings in the 1960's.

"The real explosion will come after 1970 when the biggest part of the postwar baby boom reaches the home-buying age," Tapp asserts.

Existing homes, which have substantially improved in quantity and quality because new housing units increased 50 per cent faster than new households in the 1950's, will have an effect on housing demand in this decade, he points out.

While the pressure on prices by increasing labor and material costs in the next decade is not expected to be as great as in the postwar period, Tapp notes that "the threat of creeping inflation will remain with us even though the supplies of labor and material remain as ample as they have in the immediate past."

"There is some hope, however, that construction costs can be stabilized through advances in construction technology," he continues. "In this regard, the construction industry will be immeasurably aided by a concerted effort to modernize building codes to permit the exploitation of technological advances."

Builders Told Boom Due In Retirement Homes

LOS ANGELES — Alert builders will consider the mushrooming retirement housing market which many authorities predict will compare in size and investment return to the post-war boom in veterans' housing, according to California developer Nels Severin.

Severin and H. Marshall Secrest are developing the \$30 million Palm City, Southern California's first full-scale "active" retirement community located 16 miles from Palm Springs.

Severin spoke before the Home Builders Association of Los Angeles, Orange and Ventura counties, Tuesday, at the Ambassador Hotel.

A potential demand of nearly a quarter of a million units a year is seen in the current retirement market, Severin said. This is one-sixth of 1961's predicted 1.3 million housing starts.

Problems Listed
Stating that senior citizens are not a "difficult" segment to please, contrary to the opinion of some builders, he added that they obviously have individual tastes like any other group. Most want a smaller house but a good house, having owned three to four homes in their lifetime. There are a number of ways of answering their housing problems in different type communities, he said, such as:

1. A retirement community limited to persons over 50 years of age. (This is the restriction which applies at Palm City.)
2. Mixed communities open to both senior citizens and younger families.
3. The high-rise specialized apartments which have been built in downtown sections under the 231 program, usually providing a certain amount of nursing care, or at least common eating facilities.
4. A combination of the active retirement community and 231 type, such as is now being developed in the Los Angeles area.
5. The appeal to special groups,

No-Work Dinner
NEW YORK (UPI) — Self warming TV dinners are still a long way off but packaging people recently told a Chicago bank they foresee the day when you may take a frozen meal from the freezer, open it and a chemical will be released to heat it at the dinner table.

CAREFREE APARTMENTS for retired citizens who prefer the leisurely way of apartment living, Palm City offers a cooperative plan. Attractive, roomy and comfortable, the apartments have every modern convenience to

make household chores a breeze. This arrangement allows residents more free time to enjoy the many recreational activities of Palm City.

Hotelmen Told Of TV System Plans

Meeting Tuesday afternoon at Sunset Towers, members of the Television Committee of the Palm Springs Hotel and Apartment Association expressed continued support for the revitalized Translator System.

Frank Bennett, Translator president, explained that permission of the Federal Communications Commission had been received for the establishment of pickup facilities on Santa Rosa Mountain. He stated that construction of the necessary housing facilities on the peak is practically completed that antennas, power and other equipment items are being rapidly installed.

The committee learned that full-time signals from Columbia, American and National broadcasting channels will be available in Palm Springs, North Palm Springs and Desert Hot Springs.

Experiments and engineering studies have indicated that these signals will be strong and clear and less subject to transmission difficulties and interruption than signals now received by other methods, Bennett said.

The committee will strongly recommend to the Association Board of Directors, meeting Sept. 12 that its support of the Translator System be continued and strengthened, according to Sherman Dickinson. This will involve a concerted effort to secure tangible support from hotel and home owners in the form of pledges of support.

Head of School Board Started as Carpenter

By PEYTON CANARY
CATHEDRAL CITY — Today, tall, athletic Bert Lamb, 40, is a successful general building contractor, president of the Palm Springs Unified School District board, active in the Community Church here and key figure in a close-knit family of four that works and plays together.

In 1922 Bert Lamb was one of a million GIs streaming home from the humid islands of Pacific warfare, and the war-racked islands of Japan. Lamb, a veteran of 18 months Army duty in the Pacific, capped his tour as an occupation military police sergeant near Yokohama until he got the word to load up for the 7,500-mile trip home to Torrance.

For Bert Lamb 15 years ago, home meant his pretty wife, Phyllis, and a chance to enter his trade as a full-fledged journeyman carpenter. For him, building things with wood was a happy challenge. Development of his growing contracting business has been a process of patient, orderly growth from that post-war start.

"In America, no one should have to do what he doesn't want to," Lamb told this reporter. He explained that "there are too many opportunities" here to require anyone to work "at the drudgery of doing something he doesn't like."

When their son Lee, now 16, was born, old and daughter Janis, now 14, was 6 weeks old, the family began building their own home in Torrance.

"I got a lot of the materials for the house from some stables I had in Torrance," he recalled.

"I worked on the house for a project," Mr. Lamb said.

When the home, complete with a \$1,400 two-car garage, was followed.

Lamb moved from journeyman carpenter to cabinet maker. Interested in cabinetry since his early teens and active in actual furniture making since his father gave him a wood working shop when he was 17, Lamb parlayed his skill and \$400 into a thriving business.

"I had been an apprentice carpenter at 19, and I wanted to build," Lamb explained. The desire to actually build things had brought him home from San Jose State Teachers' College before the war. After his cabinet shop became successful, he looked back to construction. In 1951 he took the state examinations, became a licensed contractor.

"There is a great difference between setting up a cabinet shop with a few hundred dollars and becoming a contractor," Lamb recalled. "You never get the money first," he explained.

"Getting started comes from a lot of little things — doing a good job, having your credit good by paying bills on time — until finally an insurance firm will underwrite your bond for a certain size job, and then you grow," Lamb added.

"A lot of Bert's success has been because he audited his own books carefully," his wife observed.

"Well yes — in this business, it's feast or famine, only you never know for sure which phase

BERTON LAMB, president of the Palm Springs Unified School District board, has progressed from journeyman carpenter to building contractor and developer since returning home from the Army in 1945. Disqualified from bidding on school jobs in this district, Lamb has been named contractor for a new Coachella elementary school addition. (Desert Sun Photo)

you're in," Lamb grinned. He explained that "A bank account may look great — until the bills all roll in. You can't know for sure whether you made money or lost it on a specific job until long after it's over."

"We learned long ago that what we had in the bank was often actually other people's money," Phyllis agreed.

From Torrance, the Lambs moved to the desert nine years ago.

Trailer Home

"We lived in a trailer when we first came here," Phyllis recalled, adding "moving from a three-bedroom house to a trailer has its problems." Two new homes, the last one built six years ago, followed the trailer, now used for vacationing.

Lamb announced he was a resident contractor in the Cathedral City area, and jobs began to come in.

"We kept busy enough to keep us here," he said. "When we first came here, we thought people who lived in the desert worked eight or nine months a year, and we went in the summer. We made it the first summer, but not since then," he added.

The entire family likes the desert. "When we do get away for a day or two, we just go farther into the desert," both agreed. With rockhounding and water skiing hobbies, vacation-time is often the signal to head for the Colorado River near Parker, Ariz.

"We will get a trip this fall — we're going to the Virgin Islands," Phyllis announced. The trip is sponsored by an air-conditioning manufacturer, Lamb explained.

Both agree "lots of people have been helpful to us." "Not in

Lamascus Rites Set

DESERT HOT SPRINGS — Funeral services for Mrs. Anna Lamascus, 82, who lived at 66-353 W. Granada St. here, will be held at 9 a.m. Monday in the Desert Mortuary chapel, with the Rev. Walter Reuning, pastor of the Desert Hot Springs Lutheran church officiating.

Mrs. Lamascus died at 3:15 a.m. Thursday in a Palm Springs hospital after surgery and illness. A native of Germany, she had lived in California 42 years and in Desert Hot Springs five years. Mks. Lamascus is survived by her widower, Albert.

Friends may call at the Desert Mortuary from Sunday until service time.

Soviet Union Lashed for Double Dealing

By PHIL NEWSOM
UPI Foreign News Analyst
"For all the world to note and remember, Soviet conduct in this conference will constitute a record of the perfidy of the government of the Soviet Union and of its betrayal of the hopes of mankind."

So this week did U. S. delegate Charles C. Stelle denounce Russia in the funeral atmosphere of Geneva's Palace of Nations for its double-dealing through many months of the nuclear test ban conference.

The target of this harsh language was a stocky man with a shock of white hair whose job it has been through three years of talks to deliver Russia's "nyet" to nearly every Allied compromise proposal.

Long Declaration
He is Semyon Konstantinovich Tsarapkin and he had just read into the record the Soviet Union's 6,000-word declaration of its intent to resume nuclear testing.

In retrospect, Soviet mockery of the negotiations became increasingly clear.

The speed with which Russia resumed its nuclear test blasts after its initial declaration indicated that Nikita Khrushchev, Tsarapkin's boss, had decided months ago that he no longer was interested in a test ban treaty as such.

Then there had been Tsarapkin's recent trip to Moscow.

After that, the U. S. presentation of a new set of compromise proposals for which Tsarapkin did not even bother to put on his earphones.

Final Announcement
Then the final callous Soviet announcement.

Yet diplomacy can be as impersonal as war and a paradox of the Geneva meetings has been that the men with whom he daily traded charge and counter-charge could look upon him with a personal regard detached from his role as Soviet spokesman.

Although never veering from the Soviet line, Western diplomats noted that he never used the personal epithet so familiar in Khrushchev's speech, and they believed that personally he sincerely desired a test ban treaty.

Down To Earth

NEW YORK (UPI)—An underground elementary school in Artesia, N.M., is expected to open its doors next January.

The school for 500 is an experiment to test the effects on children of such confining quarters minus windows, natural air and so on. The unit also will be equipped as a civil defense shelter for housing 2,000 persons for two weeks.

GOV. BROWN PROMISES CHP COMPLAINTS INVESTIGATION

SACRAMENTO (UPI)—Gov. Edmund G. Brown promised today an "early and thorough" investigation of complaints against the California Highway Patrol.

Brown told a news conference he intends to ask CHP Commissioner Bradford Crittenden to look into reports that patrolmen received money to give accident information to insurance investigators.

He also mentioned reports that a group of patrolmen in the Los Angeles area were dating a group of young women while on duty and that two Los Angeles patrolmen were slow in aiding a father trying to get his stricken child to a hospital.

"In a big department like the Patrol, things like that will happen," Brown said. "But as governor, we have kept it completely out of politics and it is a fine department."

"I intend to ask Brad Crittenden to investigate these complaints thoroughly and completely."

Brown also told newsmen: —He is ready to announce before Sept. 15 Appellate Court appointments in San Francisco and Los Angeles and will name two new superior judges in Tulare County "just as quickly as possible." Another Appellate Court judge will be chosen to replace

B. F. Van Dyke, presiding judge of the 3rd District Court of Appeal. Brown said Superior Judge James R. Agee of Alameda County will get one of the three new appellate judgeships in San Francisco.

He is "seriously considering" appointing Assemblyman William A. Munnell of Montebello, Democratic state vice-chairman and majority leader in the Assembly, to a Superior Court judgeship but may not do so until after the budget session of the legislature next year. He said Munnell had asked for the appointment.

—He has no plans now to announce his candidacy for re-election. Asked if there was any reason to believe he would not run again in 1962, Brown replied, "No, I don't think so." He added he

Cancer Fighters

HOLLYWOOD (UPI) — Ten Hollywood stars have completed tapes for use in the 1961 Cancer Crusade radio stations throughout the country. The stars include: Tony Curtis, Greer Garson, Charlton Heston, Rock Hudson, Janet Leigh, Paul Newman, Spencer Tracy, Robert Wagner, Natalie Wood and Joanne Woodward.

France Ready For American Atomic Arms

WASHINGTON (UPI) — President Kennedy has told Congress that France has agreed to allow French NATO forces to be trained in the use of American atomic weapons. He asked the lawmakers for swift approval of the program.

The French policy of not permitting American atomic weapons on French soil will remain in force, however. The instruction will be given to French NATO forces not stationed in West Germany.

U.S. law requires Congress to give specific consent to the arrangement.

This country already has similar training agreements with other NATO nations.

The agreement with France was concluded in July but was not announced until today when the President sent his request for approval to Capitol Hill.

In a reference to the brief period remaining before adjournment, he said:

"I understand and respect the importance of mature consideration in the Congress of agreements of this sort, but I believe that in the present case there are compelling reasons for rapid action."

"STOP THIS NONSENSE AND CALL CHRYSLER AIRTEMP!"

Now there's a smart, though long-suffering, woman. Even if the icebox were big enough for two, we couldn't agree with her more. For only pennies a day the entire family can enjoy the invigorating freshness of whole-house air conditioning. Climate by Chrysler keeps your home wonderfully livable all summer long, and throughout the rest of the year too. An exclusive electrostatic filter purifies the air you breathe, traps dust and dirt, destroys airborne bacteria, eliminates fumes and odors. You can have Chrysler air conditioning now—in new home or old—and for so much less than you might think. If you have a warm air furnace much of the cost is already covered. And air condition-

ing specialists will help you plan the most economical, efficient unit for your home. Chrysler Airtemp manufactures a complete line of quality-engineered climate control systems. By complete systems we mean systems for every type of requirement, whether it's residential, commercial, or industrial.

The name and address of your nearest Chrysler Airtemp dealer can be found in the yellow pages. Call him soon or simply send in the coupon below.

Maris Hits 55th; Tigers Fall 8-4

By JOE SARGIS
United Press International
If Roger Maris remains tired, he's a cinch to break Babe Ruth's record.

The young Yankee slugger, once again blazing hot with his bat although he admits he's feeling "blah," hit his 55th home run of the season Thursday night in his dramatic bid to wipe out the immortal Ruth's record of 60 home runs in a single season, which has stood the test for 34 years.

"I'm not feeling too good," Maris mumbled with bowed head after his homer, a drag bunt single and a sacrifice fly had helped the Yankees to a 7-3 victory over the Cleveland Indians and stretched their American League lead over the Detroit Tigers to nine games.

Features Show It
"Blah is the best way I can describe how I feel," he said, and a quick look at his washed features showed it. But for a tired player he's really wearing out the ball again after falling into a mild slump.

To get all that "tired" talk in its own perspective you have to go back to July 25 when Maris first said he wasn't feeling up to par. The Yankees were playing the Chicago White Sox a doubleheader that day and Maris told manager Ralph Houk he probably wouldn't be able to play.

However, he decided to play at the last minute and celebrated his decision by hitting four home runs, two in each game.

Thursday night, he dragged a skillful bunt past pitcher Dick Stigman to score Tony Kubek, hit his 55th in the third—a whistling smash into the right field bleachers—then singled again to keep a two-run rally going in the sixth to chase Stigman. Roger closed out his night's work with a sacrifice fly in the seventh to account for New York's sixth run.

The victory, practically lost on the partisan crowd of 18,549 because of Maris' latest assault on the homer record, was New York's eighth straight and for all practical purposes sewed up the AL pennant.

While the Yanks have been surging, as they did at the end of the 1960 season when they won their last 15 to break that race wide open, the Tigers have fallen apart completely.

Thursday they dropped their seventh straight, 8-4, to the Boston Red Sox, and now are in danger of even losing second place to the Baltimore Orioles, who beat the Washington Senators, 6-3, in the only other AL action.

In the National League, the Pittsburgh Pirates exploited 11

hits and four Chicago errors into a 7-5 victory over the Cubs in the only game played.

Odds Say Maris Should Tie Ruth As Mantle Off

NEW YORK (UPI) — Roger Maris now has the law of averages on his side in his bid to equal — but not surpass — Babe Ruth's 60-homer record.

The blond New York Yankee outfielder hit his 55th home run Thursday night in helping beat the Cleveland Indians, 7-3, at Yankee Stadium. That put him eight games ahead of Ruth's record pace in 1927.

Teammate Mickey Mantle collected only a double in four at-bats and, with 51 homers in 140 games, fell one game behind the Ruthian pace.

When Ruth set the record, he averaged a homer every 2.56 games. Maris, with 55 homers in 140 games, has been averaging one every 2.54 games. Projecting this average over 154 games, Maris should reach the 60-mark with one game to spare.

The Yankees actually are scheduled to play 162 games this year but baseball Commissioner Ford Frick has ruled that should Maris or Mantle tie or break the record after 154 games, it will be considered a qualified one.

Here is how Maris and Mantle compare with Ruth's pace:

Player	HR	G	A	B
Maris	55	140	7	ahead
Mantle	51	140	1	behind
Ruth	55	148	—	—

Dodgers Eye Giants for 5th In Lead Try

SAN FRANCISCO (UPI) — The rampant Los Angeles Dodgers, who appeared washed up in the National League pennant race last month, can take over first place tonight providing they knock off the stunned San Francisco Giants while St. Louis defeats in-and-out Cincinnati.

A win also would give the Angelenos five straight over the Giants and throw the latter into a deadlock for fourth spot with the Cards if they down the Reds.

Johnny Podres, the chunky southpaw who is having his greatest year in nine campaigns with the Dodgers, takes an 18-4 record to the hill. He will be faced by Mike McCormick (11-14) an off-buffed lefty.

Maxwell First Signer for 5th Hesperia Open

HERPERIA — Smiling Billy Maxwell, the chunky slugger from Odessa, Tex., and winner of the First Hesperia Open in 1957, today became the first entrant in the \$12,500 Fifth Hesperia Invitation Golf Tournament. Tournament Director Lorne Pratt announced today.

Maxwell currently is enjoying one of his best seasons. The 1961 National Amateur Champion won the rich \$50,000 Palm Springs Classic and the recent Insurance City Open.

The 5th edition of the popular Hesperia Tournament will be an unusual one in that pros will play 54 holes in 2 days on the 7,200 yard course. An 18 hole pro-sponsor-celebrity event, which is worth \$2500 to the pros and \$1000 in prizes to the amateurs, will be held on Saturday, October 7th.

The main event for \$10,000 will be a 36 hole tourney on Sunday. First prize money is \$1,800.

Pratt announced that a sponsor system, which has been in effect the last 4 years, will again be used. For a \$100 contribution which will be used to help underwrite the tournament, a sponsor will have the privilege of competing with the nation's top pros and famous entertainment and sports celebrities.

PERT ALICE Bauer, former teen golf sensation in southern California and winner of numerous tourney plans, looks happy as she tells Bermuda Dunes Country Club co-owner Ernie Dunlevie of her plans to return to the pro golf circuit at Sacramento Sept. 22.

HILL CRESTS DENVER GOLF ON 8 UNDER PAR

DENVER (UPI)—Par golf won't win a dime in the Denver Open golf tournament at the rate the pros are ripping apart the barren Meadow Hills Country Club course.

Dave Hill, a 24-year-old shot-maker, led the way into today's second round of the 72-hole tourney with an eight-under-par 63. In all, 37 pros and one amateur fired sub-par golf in Thursday's first round. The \$30,000 will be split only 35 ways on Sunday.

Hill's six birdies and an eagle left him two strokes ahead of his playing partner, Bob Rosburg, of Portland, Ore., who came in with a 65. One stroke back of Rosburg were Rod Funseth, Palm Springs, Calif.; Al Balding, Toronto; Don Fairfield, Casey, Ill.; and Bill Collins, Miami.

Hill, a Denver resident who won the Tucson Open earlier this year,

said he almost didn't enter the Denver Open.

"I've been playing so badly, I had been contemplating giving it up for two to three weeks," he said. But he came up with his best round ever Thursday in two years on the pro swing.

AFL Opens 2nd Season Saturday For 15 Game Set

United Press International
Bulwarked with fresh young talent, the American Football League opens its second round of the battle with the established National Football League this weekend with high hopes for fresh financial support from the turnstile clickers.

The 56-game, 15-week schedule gets under way with two games Saturday night — Oakland at Houston and New York at Boston — and two more Sunday—San Diego at Dallas and Denver at Buffalo.

The league, in head-to-head competition with the established NFL only in New York and Dallas this season after moving its competitive Los Angeles franchise to San Diego between seasons, appears to be considerably improved talentwise.

Senior Champ Named

Anderson Borthwick of San Diego is the new California seniors Golf Champion after posting a 71-79-150 score.

Tied for second were defending champion Gen. Robert McClure, Carmel, 75-77-152; Howard Frame, Los Altos, 74-78-152; and Paul Irwin, Pebble Beach, 77-75-152.

U.S. Net Team Faces Strong Court Threats

FOREST HILLS, N.Y. (UPI)—It could become another "Black Friday" for American tennis by nightfall tonight.

Four Yanks—Jon Douglas, Ron Holmberg, Whitney Reed and Don Dell—faced the fight of their lives against four foreigners in quarterfinal matches in the national singles championship today trying to avoid an American shutout in Saturday's semifinals.

That hasn't happened since 1958 but two of the current four were definite underdogs and the other two strictly "maybes."

The lineup paired Wimbledon champ Rod (The Rocket) Laver of Australia against the unseeded Dell, third-seeded Roy Emerson of Australia against eighth-seeded Holmberg, Rafael Osuna of Mexico against unseeded Reed, and seventh-seeded Douglas against the winner of a match between Mike Sangster of England and Antonio Palafox of Mexico.

Sangster and Palafox battled into darkness Thursday night before they were halted with fourth-seeded Sangster leading, 21-19, 8-7.

Laver breezed into the last eight Thursday by bouncing hard-hitting Chris Crawford of Piedmont, Calif., 6-3, 6-4, 6-3, and Dell ousted second-line Aussie John Sharpe, 7-9, 6-3, 6-4, 8-6.

In women's singles, defending champion Darlene Hard of Long Beach, Calif., and fifth-seeded Margaret Smith of Australia made it into the semifinals Thursday with four foreigners fighting it out today for the last two berths.

NBA Fixes Bout Rule for Champ; Liston Scored

HERSHEY, Pa. (UPI)—A federal investigator has voiced skepticism about the rehabilitation of heavyweight challenger Sonny Liston.

John G. Bonomi, special counsel to the Kefauver Senate subcommittee which has been investigating boxing, reminded delegates to the National Boxing Association convention Thursday that Liston hails from Missouri.

"And as far as Liston is concerned, I'm from Missouri, too," Bonomi declared. "I'll have to be shown before I take any stock in his rehabilitation. He has a long record."

Liston, top contender for a shot at Floyd Patterson's heavyweight crown, was suspended indefinitely this summer by the Pennsylvania commission and the NBA for two brushes with the law in Philadelphia. He has placed himself in the care of a Catholic priest in Denver, Colo.

The NBA delegates concluded their convention by adopting two important rule changes and electing Dr. Charles P. Larson of Tacoma, Wash., as their new president.

As expected, the NBA unanimously amended its championship regulation so that a heavyweight titleholder now must defend only once a year against a top-ranked contender, instead of once every six months.

The delegates also unanimously adopted a rule banning return-bout clauses in contracts. This amendment was aimed at eliminating long series of matches between alternating champions.

Baugh Sees Defense As Key To Titans' League Standing

BEAR MOUNTAIN, N.Y. (UPI) — Coach Sammy Baugh figures that if his New York Titans can execute a "three-touchdown defense" they should win the American Football League championship.

"We know we've got the offense," says Baugh. "I have the best pitcher in the league (Al Dorow). And if we can get a defense that will hold the opposition to three touchdowns a game, we can win it."

Last season the Titans were the highest scoring team in the AFL with 382 points. Yet they won only half of their 14 games.

The big reason for that was the fact that the Titans gave up more points than they scored, yielding a league high of 399.

New York's pass defense was inept, to put it mildly. And this year Baugh has almost completely revamped his defensive backfield. The change was so thorough that two of last season's regular defensive backs, Roger Donnoho and Fred Julian, have been cut from the squad.

Baugh also would like to beef up the Titans' running game. New York's passing attack, however, needs no tinkering.

The combination of Dorow passing to burly Art Powell and slender flankerback Don Maynard helped the Titans average 27 points a game in 1960. Dorow's

26 touchdown passes were high for the AFL. Powell caught 14 of these tosses and Maynard six.

Baugh feels New York's running game will be better than last year's and this should make the passing even more effective. He is especially high on his fullbacks, Bill Mathis is No. 1 with Jim Joyce, who played two seasons in Canada, and Bob Brooks, a rookie from Ohio State, behind him.

The leading candidate for the running halfback at present is Leon Burton, a fleet 170-pounder who played well toward the end of last season. Other candidates are Dick Christy, just obtained in a trade with Oakland, and a pair of 1960 holdovers, Dewey Bohling and Bill Shockley.

Richards Preps As Houston Boss

HOUSTON, Tex. (UPI) — Paul Richards, whose guiding hand boosted the Baltimore Orioles from the American League cellar to pennant contenders in a few short years, started today on the task of doing the same thing for the new Houston Colts.

Houston, like New York's new National League team, will be allowed to select a number of players from the present eight league teams.

Harmon EmCee LA Grid Dinner; Coaches to Talk

LOS ANGELES — Sportscaster Tom Harmon, "old 98" of Michigan's All-American fame, will be master of ceremonies today at the 19th annual Los Angeles Junior Chamber of Commerce "Kick Off" football luncheon at the Biltmore Hotel Grand Ballroom.

Honoring the Los Angeles Rams, Los Angeles State and the University of Southern California at Los Angeles and University of Southern California football teams, the guest speakers will include head coaches Bill Barnes and John McKay, of UCLA and USC respectively.

The JC "Kickoff" brings together coaches, sports writers and fans for a preview of the coming football season.

Harmon not only introduces the guests but presents taped interviews from the program from coaches at University of California, U. of Washington, Stanford, Ohio State, Notre Dame, Iowa and U. of San Francisco.

THE DESERT SUN Page 11

Strength Has Appeal

Most of us took heart when this nation and its Western allies finally protested Khrushchev's ruthless slamming of the gate on East German refugees.

But we must not be lulled into a comfortable illusion that the protest amounted to any important gain over Russia.

Khrushchev has been slamming gates on human freedom for a long time. He has demonstrated the barrenness of the Communist way of life in many satellites. Yet the so-called emerging nations still look with interest toward Moscow. Why?

Is it simply that in this day of hard, practical international politics strength is the most admired attribute of all?

The weak may be pleased with sweet reasonableness. They may welcome dollars and delegations. But realistic achievement is a powerful magnet to those who need help in order to achieve.

And the horror of distant cruelty can too easily be exercised by the blind faith that "it can't happen here."

As cruel as Khrushchev's action was in Berlin, it did achieve his purpose of integrating East Berlin and East Germany.

And the many protests that have followed the Russian nuclear bomb tests don't really mean much either. In fact some of these sound rather hollow.

Khrushchev and his Kremlin cohorts know, or think they know, what they are doing and where they are headed. Their decisive actions are admired by some, feared by others, but they get results.

If we of the free world are to win in the final test we must soon come to the decision that action, not reaction, is to be our policy.

We must not be bellicose, but we must make it very clear that the might of right still stands ready to protect the freedoms and decency to which most men instinctively aspire.

Other Editors

(Burlingame Star)

Publicity gimmick though it may essentially have been, that nine-day stay of a young Peninsula father in an 8x10-foot bomb shelter at the county fair produced some interesting results and observations.

Perhaps the most noteworthy of these had nothing at all to do with civil defense or emergency survival.

It was mentioned by Terry Scott, the man in the shelter, to Walt Zimmerman, one of our reporters.

"The extreme quiet was good," said Scott. "I had a chance to do some thinking about my own personal values."

From the emphasis Scott put on his words, it was obvious he had valued this part of his experience especially highly.

Small wonder. For with Scott, was with many of us, quiet tends to become a virtual stranger in our noisily busy world.

It's nice to become acquainted with it again. And necessary.

"The important job is to learn to fit quiet — and the kind of thinking it brings — into our daily lives. If enough people all over the world could do this, could gain the strength, the peace and the direction that come from silent communion

with inner self and with God, it would do incalculable good.

It would, for one thing, greatly lessen the awful possibility of all of mankind having to find their quiet where Scott found his, in a bomb shelter.

LETTER

The Editor
Desert Sun

While here (in Palm Springs) for the weekend the houses in our neighborhood had previously been entered. So when we saw a light in a neighborhood house — I had Peg Raschall call the police as my phone was yet disconnected.

That policeman had the nerve to tell her that was a nuisance call. I wonder where they think their salaries are coming from — besides our taxes went up \$100 in three years and still are going up. Still they resent protecting us.

The point is we don't like being insulted by them when it's their duty to answer all calls — too much is going on around here.

Sincerely
P.S.: Withhold my name if possible.

I Tried to Get It All, Son

Dear Abby . . .

... by Abigail VanBuren

DEAR ABBY: I am terribly worried about my mother. It all started about two years ago. She started talking to herself. I thought it was just nothing, but it kept getting worse. The other day she locked herself in the lavatory for about an hour. I became worried, and asked her what was taking her so long. She said she was making contact with her brother in California. (That brother has been dead for about ten years.) Now she tells me that she makes contact with her parents (they are both dead), and she talks to herself more than ever. I love my mother very much, and want to know how I can help her. When I ask her how she feels she tells me she feels fine, so I can't suddenly rush her to a doctor. She is 53, and the nervous type.

WORRIED DAUGHTER
DEAR DAUGHTER: Even people who feel "fine" need an occasional physical check-up. It is obvious that your mother needs the help of a doctor immediately. Make an appointment for her, and tell her it is merely a routine examination.

DEAR ABBY: My parents gave me a bicycle for my twelfth birthday. They won't let me ride it on the highway. Why?

MAD
DEAR MAD: Because they

want to see you celebrate your thirteenth!

DEAR ABBY: At present I am doing some secretarial work for my church. I am trying to bring the file cards of each member of the congregation up to date. This involves calling the members and asking them questions about themselves. One of the questions is, "When were you born?"

To my surprise, many of the older members have told me that this question is too personal, and have refused to give me this information. They act as though I am prying and snooping for my own benefit.

HURT CHURCH-WORKER
DEAR HURT: Assume those who are reluctant to reveal their ages that the information will be kept strictly confidential, and explain why the date of one's birth is necessary for the official church records.

CONFIDENTIAL TO ALL
MAN: There is nothing "we a k" about a man's having himself a good cry. Sometimes it takes more courage to cry than to refrain from it.

For a personal reply, write to ABBY, Box 3363, Beverly Hills, Calif., and include a self-addressed, stamped envelope. Abby answers ALL mail.

This Side of The Sun

By R. F. 'Phat' Graettinger

The miners came in forty nine
To set the westward trend,
Which keeps on growing every year
And seems to have no end.

Tomorrow California has a birthday. The state will be 111 years of age and going stronger every year.

THE STATE was admitted on September 9th, 1850, four years after Mexico ceded the area to the United States and two years after gold was discovered at Sutter's sawmill. In 1849 the gold rush was on and the next year, California became the 31st state in the Union.

At that time it was the second largest state in the nation only Texas being larger. But since then Alaska drew into the Union, shoving Texas into second place and California back to third.

WE CAN'T DO anything about that matter of third rank in size, not even if we annexed Baja California and it's 27,663 square miles. Alaska and Texas have too much of a bulge on us and besides, Mexico might not like it.

But we hold second rank in the nation in the matter of population and are doing something about that at the rate we are growing. The last time I looked it was estimated 1,000 were coming to California every day to live. New York is the only state with more people within its boundaries. Last year, in the official census of 1960, the Empire state only had an edge of just a little more than a million on us.

CALIFORNIA got its name out of a book written by Montalvo and which was a best seller in 1510. In the story an imaginary island near the earthly Paradise is described and Cortez, when he got here in 1535 thought he was in Paradise and named the area after the island.

Many people, arriving even in this day, have the same idea. The state flower is the poppy and you all know the Bear flag which flies over public buildings.

I THINK, although being the cautious type, wouldn't bet on it, that the state song is "I Love You, California" which says something about this being the greatest state of all.

But not having heard it for years, am not sure.

Could be just one of the numerous songs about California. Every state has at least one song written about it by some nostalgic Tin Pan Alley composer. Can't think about it, I can't recall one about Utah right now.

TOMORROW is the second holiday this week for some people. All state employees are included but it won't do them much good. They get off on Saturday anyway.

And it won't load the highways to add to last weekend's slaughter.

The Native Sons and Native Daughters will celebrate and if you own a Bear flag, display it.

Outstanding Columns May Be Coming Up

By HOLMES ALEXANDER

WASHINGTON — Perpetual motion, although considered a scientific impossibility, actually exists in a writer's mind. It goes on and on. This is an au-revoir-but-not-goodbye column, as I am flying to old haunts at Cambridge University, England, for two weeks of vacation in which all scribbles indulge — reading, wishing-I'd-said-that, composing masterpieces by moonlight.

Meanwhile I am courting statesmanship-by-association. Five Senators, five Representatives and the two National Chairmen of the major parties will be my guest columnists. Let me introduce them in alphabetic order:

Senator Everett Dirksen, the Minority Leader, who sublimates great legislative skill and knowledge under the cap-and-bells of genial tomfoolery. But don't let him fool you — this is as knowledgeable and able a man as walks the marble corridors of Capitol Hill.

Knows Atomic Energy
Senator Hubert Humphrey who won this column's Senator of the Year Award of 1961. He is the Majority Assistant Floor Leader (Whip) and a walkie-talkie authority on Foreign Relations, Nuclear Testing and Disarmament, to mention only a few subjects where he excels. He will explain how a conservative and liberal can lie down together.

Senator Henry Jackson who was chairman of the Senate Committee of the Year in 1960. In House and Senate, he has lived with the delicate yet stupendous subject of Atomic Energy as long or longer, I think, than any living legislator. For several years Jackson has

been majoring in another fissionable material — the complication explosion of Government.

Sen. Stuart Symington who saw in the late 1940's, long before anybody else (unless it was his friend James Forrestal) that the Russians had an Air — Space program which was going to move at incredible pace and challenge America's supremacy which we have always taken for granted. Ten or twelve years ago, Symington was writing me letters about his prophetic premonitions. A wiser man than I would have believed him sooner than I did. But I took a vow never again to take lightly anything Symington seriously said.

Senator John Tower, Texas' first elected Republican member of the upper chamber, is a man of admirable poise, wit, conviction and charm. In covering the special election in Texas last spring, I inclined to favor his Democratic opponent, William Blakely, whom I regarded as better qualified by age and experience for the seat of Lyndon Johnson. But Tower's few weeks in Washington have convinced me I was mistaken and that he will become a memorable figure of the Senate — than which I have no higher praise.

All Nationally Known
These Senatorial guest columnists, as you see, are all nationally known personalities, picked with that in mind. The five Representatives are not well-known, but are picked for personal, partisan and regional reasons.

Rep. Dale Alford of Little Rock (Ark.) is an extraordinarily attractive fellow who will speak for the Confederate spirit of the South.

LEGAL NOTICE

LEGAL NOTICE

No. 239
NOTICE OF INTENTION TO ENGAGE IN THE SALE OF ALCOHOLIC BEVERAGES
To Whom It May Concern:
Subject to issuance of the license of Alcoholic Beverage Control, giving that the undersigned proposes to sell alcoholic beverages at the premises, S-S Hwy. 111 — 1 Mile West of Del Sol Road, Rancho Mirage
Pursuant to such intention, the undersigned is applying to the Department of Alcoholic Beverage Control for issuance by transfer of an alcoholic beverage license for these premises as follows:
ON SALE BEER
Anyone desiring to protest the issuance of such license may file a verified protest with the Department of Alcoholic Beverage Control, at Sacramento, California, stating grounds for denial as provided by law. The form of verification may be obtained from any office of the Department. The premises are now being used for the sale of alcoholic beverages.
ABRAHAM E. THOMAS
Publish: Sept. 8, 1961.

No. 237
NOTICE OF TRUSTEE'S SALE
T. O. No. 60-3017
On Wednesday, October 4, 1961 at 11:00 A.M. the undersigned, as Trustee under and pursuant to Deed of Trust, No. 60-3017, executed by BREADEVA JERVEL, a married woman and recorded Deed of Trust, No. 60-3017, page 239, of Official Records in the office of the County Recorder of Riverside County, California, will sell at PUBLIC AUCTION TO THE HIGHEST BIDDER FOR CASH (payable at time of sale) the principal and interest of the said Deed of Trust, as shown by Map on file in Book 19 page 2 of Maps, Records of Riverside County, California.

Said sale will be made, but without covenant or warranty, express or implied, regarding title, possession, or encumbrances, to pay the remaining principal sum of the loan secured by said Deed of Trust, to-wit: \$4,482.75, with interest from August 15, 1959, as in said note provided, and advances if any, under the terms of said Deed of Trust, fees, charges and expenses of the Trustee and of the trusts created by said Deed of Trust.

The beneficiary under said Deed of Trust, by reason of a breach or default in the obligations secured thereby, heretofore executed and delivered to the undersigned a written Declaration of Default and Demand for Sale, and written notice of breach and of election to cause the undersigned to sell said property to satisfy said obligations, as provided in said Deed of Trust, on or about May 26, 1960, the undersigned caused said notice of breach and of election to be recorded in the office of the County Recorder of Riverside County, California, as said Official Records, Date: September 1, 1961.

By Dale L. Peterson, Secretary
Publish: September 8, 15, 22, 1961.
No. 239
NOTICE OF INTENDED SALE
AS HEREBY GIVEN THAT the Board of Supervisors of the County of Riverside, State of California, does offer for sale and grant by ordinance to the highest bidder, on the terms and conditions specified in this advertisement and proposed Ordinance No. 477 on file in the Office of the Clerk of the Board of Supervisors, a franchise described as follows:

A non-exclusive franchise for a period of 25 years to construct, operate and maintain a television antenna cable service together with all necessary appurtenances as may be required to operate and maintain said service, along, under and across the public roads within the unincorporated area of the County of Riverside as the same now or may hereafter exist, for transmitting and distributing electrical impulses and signals for television or radio purposes;

namely, to produce reproductions on sight, and on demand, of any and all programs or material of the residents of the unincorporated area of the County of Riverside.

The franchise will be received by the Board at the office of the Clerk of the Board, up to 10 o'clock A.M. on October 18th, 1961, and at the time above mentioned in the board room of the Board of Supervisors, and all sealed bids will be opened. Each sealed bid shall be accompanied with cash or a certified check for the full amount of the bid and no sealed bids shall be considered unless the cash or the check is enclosed therewith.

At the time of the opening of the bids, any responsible person, firm or corporation, or any person or persons, may bid for franchise a sum not less than 10% above the highest sealed bid, and any such oral bid may be raised not less than 10% by any other responsible bidder, and said bidder may so continue until the franchise is finally struck off and awarded to the highest bidder.

If the successful bid is an oral bid the successful bidder shall deposit

at least 10% of his bid with the Clerk before the franchise shall be struck off to him. If he shall fail to do so, then his bid shall not be received, and the franchise shall then be offered again for sale to the bidder who shall make the highest cash bid thereafter, subject to the same conditions as to deposit.

The successful bidder shall deposit with the County Clerk, within 24 hours of the acceptance of his bid the remaining 90%, and if he shall fail to do so, the said bid shall be forfeited, and the franchise set aside in existence no further proceedings shall be had under the franchise shall be had unless it is readvertised and again offered for sale in the manner herebefore provided.

The Grantee of the franchise or his assigns shall, during the life of the franchise, pay to the County of Riverside 2% of the gross annual receipts of the Grantee arising from the use, operation, or possession of the franchise. If the franchise is a renewal of right already in existence, payment shall begin upon the granting of the franchise. If the franchise is not a renewal of a right already in existence, the percentage shall be paid for the first 5 years succeeding the date of the franchise, and thereafter the percentage shall be payable annually. If payment is not made, the franchise shall be forfeited.

The Grantee shall file with the Clerk of the Board, within 5 days after the awarding of the franchise, a corporate surety bond approved by, and running to the County of Riverside, in the sum of \$10,000.00, conditioned that the Grantee shall well and truly observe, fulfill and perform each and every term and condition of the franchise and that in case of any breach of condition, the whole amount of the penal sum shall be deemed to be liquidated damages and shall be recoverable from the principal and surety upon the bond. A cash deposit in the same amount may be made in lieu of bond.

Rep. Dan Brewster of Baltimore County (Md.) is an old and valued friend who "knew me when" and will "tell all," he says.

Rep. Robert Corbett (Pittsburgh), Rep. Bill Cramer (St. Petersburg, Fla.) and Rep. Bob Wilson (Chula Vista, Calif.) are chosen to speak for three phases of the Republican renaissance in the House where the GOP gained 20-some seats in 1960 while Mr. Kennedy was winning the White House. All will discuss their party's plans — Corbett about urban voting, Cramer about Southern voting, Wilson about the over-all.

Finally, Democratic National Chairman John Bailey and Republican National Chairman Bill Miller will write columns about their party's national picture.

Here they are — six Democrats, six Republicans. I'm sure all readers will enjoy them. I hope some readers will write these gentlemen in both approval and disapproval.

CATHEDRAL CITY

Family Reunion Week for G. Stanley Smith Couple

CATHEDRAL CITY — It was family reunion week at the home of Mr. and Mrs. G. Stanley Smith when their son Keith returned home after nearly three years in Mexico as a Mormon missionary and their daughter Mrs. Archie (Sharon) Stone and young children Nelson and Marilyn were here from their home in Provo, Utah.

A graduate of Palm Springs High School, Mrs. Stone visited with her many friends in the area while at the home of her parents. They left Wednesday morning with Keith, sister Tammy Smith and Linda Scott for Provo where Miss Scott will start her junior year at Brigham Young University. Keith will then drive Tammy to Rexburg, Idaho, where she will enter Rick's College as a freshman scholarship student.

Mr. and Mrs. Leon Yeakum with their five children, Leona, Lester, June, Virginia and Rita, her niece and nephew, Carolyn and Darrell Brown and young friend David Norris, returned last week from a camping trip. They hiked and fished while visiting Zion National Park, and Bryce Canyon National Park in Utah, and at Kaibab Forest, Grand Canyon National Park and Oak Creek Canyon in Arizona.

Visiting with Mr. and Mrs. De Ziegler and daughter Carolyn over the weekend were their other daughter and family, Mr. and Mrs. Ron Chapelle and young son Steven, who make their home in Covina.

Mr. and Mrs. Robert Hollister and children Toni, Susan and Randy returned Saturday night after spending five weeks at their summer place at Lake Connecaut, Pa.

Mrs. Ed (Flora) Park with her daughter Mrs. Theda Killen and grandson Ed spent the summer at Balboa Island and other coast resorts. Young Britt returned to Norfolk, Va., where he attends private school. Mr. Park joined the family for the weekends. Last Saturday Mr. and Mrs. Park assisted by Mrs. Killen and Linda Mark reopened their Cottage Cafe for another season.

During their three-week vacation Mr. and Mrs. Nate Cohn, accompanied by Mrs. Beatrice Mitchell of Los Angeles and Mrs. Grace Hayes of Chicago, visited in Las Vegas, Yosemite and San Francisco. Nate is chief of Cathedral City Volunteer Firemen.

Mr. and Mrs. Ed Donahue divided their three-week vacation between Idyllwild, Los Angeles and Oceanside. Ed is back at his work and Mrs. Donahue will be back and forth from Idyllwild until October. Her mother, Mrs. Anna Sherkey, has been at their cabin all summer.

An interesting vacation was enjoyed by Mr. and Mrs. Walter Colglazier and their sons Pat and Mike. While camping at the various places in the Fort Apache Tribal Reservation at White River, Ariz., they did some successful trout fishing in the lakes and streams.

Mr. and Mrs. Ed Jorgensen and daughter Judy have returned to their 'G' Street home after an extended vacation in the Hawaiian Islands. They went over on the Maunaloa and returned by Jet.

Mr. and Mrs. Robert Howe with daughter Valoree and son Chazz returned Monday night from a week at Big Sur. They also visited

in Carmel and Monterey. The previous week Mrs. Howe was counselor at the Presbyterian summer camp at Big Horn near Idyllwild, which was attended by the Senior High Youth Group of the Cathedral City Community Church. Howe met his family at Big Horn at the end of the camping session and they drove north.

Mrs. Ed Smith is improving satisfactorily at Desert Hospital following a heart attack at their home on Vista Drive. The Smiths were swimming when she became ill last week and was rushed to the hospital.

Sheryl Scott and Carolyn Wiswell returned home last week after spending the summer with Sheryl's grandparents, Mr. and Mrs. John Phillips, at their home on Lake Wyandotte, Oklahoma.

Mr. and Mrs. Quintino Biondi and family spent the holiday at Idyllwild.

Car Offers Lightning Escape

TRENTON, N.J. (UPI) —Head for a car or a skyscraper when a summer storm breaks. You probably won't become part of lightning's annual death toll of 300 persons in the United States.

The counsel is from the Medical Society of New Jersey.

It warns that lightning's typical victim stands in wet or damp clothes on beaches or exposed hilltops, or near wire fences, other metal structures or trees.

No tree is a safe refuge, the society says. The most dangerous ones, in order, are the oak, elm, pine, ash, willow, poplar, spruce and maple.

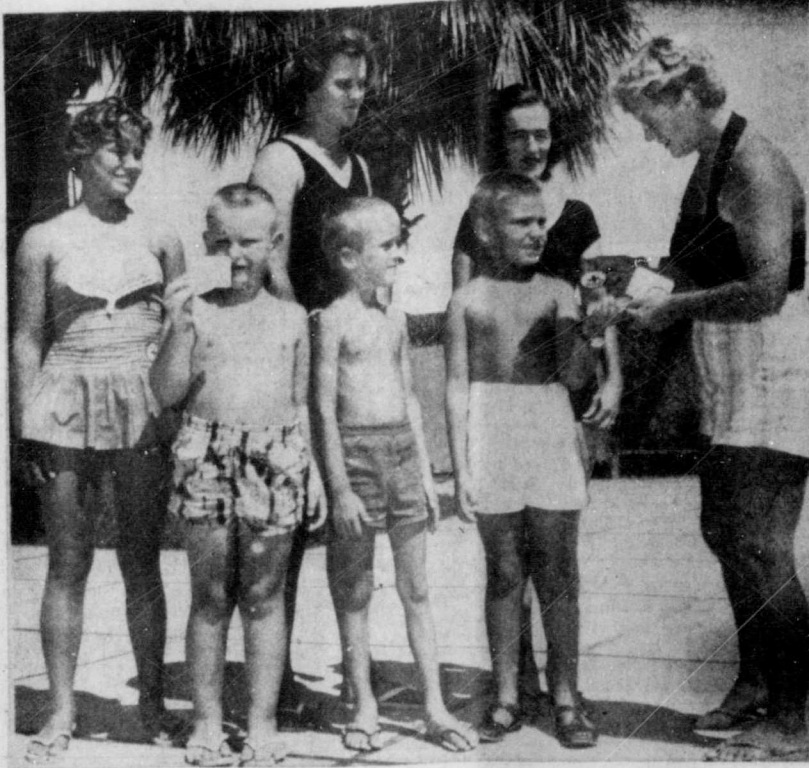

PLANS WEEKEND TRIP

WASHINGTON (UPI) — President Kennedy planned to fly to Hyannis Port, Mass., late today for his 11th consecutive weekend on Cape Cod. He hoped to leave the White House about 4:45 p.m. EDT. He planned to return to Washington Monday.

MOTHER GOOSE nursery rhymes come to life in the Los Angeles County Fair's delightful new feature, the Storybook Farm. Fair queen contestant, Carolyn Mays, entertains some of the farmyard's denizens. Pomona event opens Sept. 15 for a 17 day festival.

ISSUES DRAFT CALL
WASHINGTON (UPI)—The Defense Department issued Thursday a call for 20,000 draftees to be inducted into the Army during October. The call was 5,000 below the 25,000-man draft for September, but still more than triple the 5,000-6,000 monthly rate in effect before the Berlin crisis.

SWIMMER AWARDS earned in the summer recreation and safety program co-sponsored by the city recreation department, Palm Springs Safety Council and local American Red Cross chapter, were presented to this sextet by instructor Mrs. Marjorie Hamerschlag. Front row, from left, are Jo Graves, junior life saving certificate winner; David Carlin, beginner swimmer; Mark Wisong, intermediate swimmer; and Fredrick Morrison, junior life saving; second row, Margot Morrison, senior life saving certificate; and Mrs. Alice Wisong, adult swimmer. School Librarians Association Tells the Ways for Promoting

By United Press International

Here are some of the ways the American Association of School Librarians says citizens can promote school libraries.

—Discussing school library situation with the superintendent of schools and the board of education. Is there a library in each elementary, junior and senior high school in your town?

—If there is no librarian employed by the school district, seek help from the state school library supervision (available in 27 states only) or from the state, county or local public librarian.

—Visit schools where there are active school library programs.

—Urge the appointment of a qualified school librarian to serve

as the supervisor or coordinator of the districtwide program.

—Urge successful teachers who are interested in books and the curriculum and who work well with children and other teachers to enroll in school library courses in summer school as a first step

toward becoming professional librarians. Subsidize the program if the need is acute.

—Stress the need for adequate clerical staff so that the librarians are utilizing their special skills and not serving primarily as clerks and caretakers.

Cash Flow Now Provides Most of Business Money

By LeROY POPE

United Press International
NEW YORK (UPI)—The term "cash flow" mystifies a lot of Americans, even businessmen.

But cash flow fast is becoming of even greater significance than stocks and bonds in financing our expanding economy and hence to the national future.

Some corporations, like those in the real estate leaseback field, make their payments to investors out of cash flow instead of out of earnings in the traditional sense.

Cash Flow

And expert accountants say cash flow now provides around 75 per cent of the money needed by American business. Loans and the

sale of stocks and bonds provide the rest. But the proportion of business firms' money that comes from cash flow has gone up steadily from about 55 per cent in 1953 and from a very small figure two generations ago.

Cash flow is a product of modern accounting and modern taxation methods. The definition is simple:

Cash flow is all the money a company has at its disposal during the year over and above its actual cost of operations and taxes. It is composed of profits, depreciation and depletion allowances and reserves for amortization of funded debt. It is estimated that the cash flow of corporate business in the United States has grown from \$20 billion to over \$30 billion since 1953.

Profit and Cash Flow

Years ago, before depreciation, depletion and other reserves became so important, the difference between what a corporation took in and its operating costs, including taxes and interests, was profit. Now there is a huge distinction between profit and cash flow, and according to experts the future of our economy depends on

how wisely cash flow is managed. If it burns holes in the pockets of company managements and is spent unwisely on wasteful competition or merely to replace facilities that aren't needed any longer, or if the accumulated funds are allowed to lie half idle in relatively sterile investments, then the companies that do these things will wither and have a blighting effect on the economy as a whole.

On the other hand, if cash flow is wisely invested along with new capital in such fruitful ventures as Dupont's work in nylon and dacron, for example, the companies that spend it this way will prosper and benefit the national economy enormously.

POOL SPACE RESOURCES

FARNBOROUGH, Eng. (UPI)—West Germany, Britain and France will team up to launch a European satellite, it was announced at the British air show here Wednesday. Germany will supply the third stage of the missile. Britain's Blue Streak rocket will be the first stage and France's Veronique the second.

Mrs. Post Funeral Set

Funeral services for Deloris Post, 38, newly hired Palm Springs school teacher, who died Wednesday of an overdose of sleeping pills, will be held Monday at Wiefels and Son Chapel.

A resident of Palm Springs just two months, Mrs. Post was born in Salinville, Ohio, and resided in California for five years.

She is survived by her widower, Richard L. Post, a daughter, Mary Jane; a son, Richard William; five brothers; one sister; and her mother, Mrs. Grace Kappos.

Services will be held at Wiefels and Son Chapel at 10 a.m. Monday, with the Rev. Gene Warren, pastor of Carlsbad Union Church, and the Rev. Charles Brown, assistant pastor of Palm Springs Community Church, officiating.

Interment will be in Desert Memorial Park.

Highway Litter \$1.75 Million

LOS ANGELES (UPI) — Litter thrown on California's highways costs \$1.75 million yearly to clean up, according to H. Dana Bowers, supervising landscape architect of the state Division of Highways.

Bowers told the Los Angeles Beautiful Committee that along with litterbugs the current dry spell is ruining landscaping along the freeway system.

He said planting of ice plant and English ivy has been temporarily halted until the drought ends.
